PROJECTS

Hackerrank automation 🔗

Node Js , puppeteer

- Puppeteer is a Node library that is provided by Google and it is based on promises.
- This project includes login automatically into the Hakerrank platform using a username and password.
- It will automatically submit code with our automation

script that we have written with puppeteer using NodeJs.

Tour & Travel 🔗

This is a useful and easy to build Tour & Travel project using HTML CSS and JS.
