## INTRODUCTION

I am an enthusiastic undergraduate in engineering and passionate in various technical fields especially in Server Side and Front-End Software Development. I have experience of some internships in Full-Stack development, Machine Learning and Artificial Intelligence.

---

## KEY SKILLS

**Languages :** Javascript, Java, C++

**UI Development :** HTML, CSS

**Technology :** Git & GitHub, Object-Oriented Programming, Docker, Insomnia, OpenCV

**Other :** Data Structures and Algorithms, Image Processing, Basic IoT Development, Content Development

**Soft Skills :** Strong Verbal and Written Communication, Teamwork, Analytical Skills

---

## PROFESSIONAL EXPERIENCE

**SaleSine, DELHI** SDE Intern

**April 2024 - Present**

Project: Secure Task Tracking System

1. Design and Develop UI using Vue.js framework of node.js
2. Create the functionalities, responsiveness and routes using Vue.js components and methods.
3. Develop secure back-end using Nest.js framework of node.js
4. Secure register and login of users using JWT token

**NIT KARNATAKA** Full Stack Development Intern

**Aug 2023-Sep 2023**

Tech Stacks Used: Django, Flask, HTML, CSS, Javascript

Created some interesting mini projects like Car game, Guess the secret number

**YBI FOUNDATION, DELHI** Machine Learning Intern

**Aug 2023 - Oct 2023**

Tasks and Assignments:

1. Implement ML algorithms like Decision Tree, K-mean Clustering, Linear and Logistic regression in various projects.
  2. Figure out a set of common steps involved in an ML project
  3. Always used Google Colab, and used Python as the programming language
- 

## EDUCATION

### ELECTRONICS AND COMMUNICATION ENGINEERING

**DEPARTMENT, IET LUCKNOW**

Bachelor's of Technology(B.Tech.), Electronics and Instrumentation Engineering (2020-2024)

**LITTLE FLOWER HOUSE (CBSE)**

AISSCE (2019)

---

## CERTIFICATIONS

1. Full Stack Development Certification by NIT Surathkal (Karnataka)
2. Python and Artificial Intelligence Certification by AWS
