PROFESSIONAL EXPERIENCE

Software Developer Intern, Jan 2024 – present | Noida, India
Routa Digital India Pvt. Ltd. 🔗

As a Software Developer Intern at Routa Digital India Pvt Ltd, I contributed to building and maintaining high-quality software solutions. I assisted in system design, coding, performance optimization, and seamless front-end and back-end integration, gaining hands-on experience in the software development lifecycle.

PROJECTS

Billion Freelance (Canadian project), Backend Developer & Frontend Contributor 🔗
Designed robust backend architecture and APIs, ensuring scalability, security, and high performance. Collaborated on frontend integration to deliver a seamless, user-centric experience.

Mawaad-Foundation (Dubai project), Backend Developer 🔗
Optimized backend systems and developed APIs for a Dubai-based OpenCart project, ensuring performance, scalability, and seamless integration. Focused on delivering high-quality user experiences with robust backend solutions.

First Line Support (Canadian project), Backend Developer 🔗
Optimized server-side functionality, databases, and API integrations to connect patients with therapists securely and efficiently. Enhanced system performance, reliability, and key features for a seamless user experience.

Tic-Tac-Toe (Local Project)
Tic-Tac-Toe is a project that utilizes 2D arrays to build a dynamic game board, process player moves, and check winning conditions. It offers practical experience with Java loops, conditionals, and array manipulation.

Library Management System (Local Project)
The Library Management System manages books, members, and transactions using CRUD operations. It integrates file handling or databases for efficient record-keeping and seamless lending management.

EDUCATION

Bachelor of Technology, KMC Language University 🔗 2021 – 2025 | Lucknow, India

Senior Secondary, Manasthali Education Centre 🔗 2020 – 2021 | Reoti, Ballia

Secondary, Manasthali Education Centre 🔗 2018 – 2019 | Reoti, Ballia

SKILLS

Computer Languages — HTML | CSS(Bootstrap) | PHP | Java | JavaScript | MySql

Frameworks & Libraries — PHP (Core, Larevel, OpenCart, CodeIgniter), Java(Spring), JavaScript (AJAX, JQuery)

Version Control tool — Git, Github, GitLab

Problem-Solving — Ability to analyze and fix issues efficiently.

Adaptability — Learning new technologies quickly.

Collaboration — Working effectively in teams.

Time Management — Prioritizing tasks effectively.

Communication — I have native-level communication skills, enabling effective collaboration, idea articulation, and confident client interactions.

CERTIFICATES

Software Developer

I hold a **Software Developer Certificate** from Routa Digital India Pvt Ltd, demonstrating my proficiency in software development, coding practices, and problem-solving skills, gained through hands-on experience in real-world projects.

Certification by Proper Dot Institute

I received a certificate from Udemy for completing courses in CSS, JavaScript, PHP, and Python.

Certification by Zechariah Tech

I earned a Udemy certificate for completing courses in PHP, MySQL, and web development. The training covered database management, dynamic websites, and backend development.
