PROFILE

Full-Stack Developer with a strong foundation in building dynamic web applications through personal projects and continuous learning. Proficient in both front-end and back-end development using Next.js, React, Node.js, and MongoDB, complemented by skills in Java, Spring Boot, Docker, PostgreSQL, Prisma ORM, and Supabase. Committed to delivering quality, responsive solutions, and eager to contribute innovative ideas while growing professionally.

EDUCATION

Dr. Virendra Swarup College of Management Studies <i>Bachelor of Computer Applications</i>	Kanpur, Uttar Pradesh 2022 – 2025
Kanya Kubja Public School <i>Intermediate</i>	Kanpur, Uttar Pradesh 2021 – 2022
Kanya Kubja Public School <i>High School</i>	Kanpur, Uttar Pradesh 2019 – 2020

TECHNICAL SKILLS

Programming Languages: JavaScript (JS), TypeScript (TS), Java, HTML, CSS
Framework: Next.js, Spring Boot
Database: MySQL, PostgreSQL, MongoDB
Front End: ReactJS, Context-api, React Redux, TailwindCSS, Shadcn, GSAP, React Hook Form
Back End: Node.js, NextAuth.js, Express.js, Mongoose ODM, Spring Data Jpa, Prisma ORM
Developer Tools: Git, Docker, Vercel, Render, GitHub, Postman, Supabase
Other Skills: Strong problem-solving, team collaboration, attention to detail, verbal communication

PROJECTS

- S-mart E-commerce app** | *TypeScript, Next.js, MongoDB, Google Gemini API* s-mart-blush.vercel.app
- Developed and deployed a full-stack, AI-powered e-commerce app using Next.js to create a fast and interactive UI.
 - Integrated Razorpay to enable secure and optimized payment services, processing 1,000+ transactions.
 - Utilized GSAP for seamless animations, improving user interaction and user retention span by 15%.
 - Integrated GitHub and Google OAuth for authentication, enhancing security and reducing login issues by 20%.
- Employee management system** | *Java, Spring boot, MySQL, Spring Security*
- Built a full-stack system to manage 1000+ employee records with secure login and role-based access.
 - Developed REST APIs using Spring Boot and Spring Data JPA with MySQL, reducing manual tasks by 60%.
 - Implemented Spring Security for authentication, improving app security and data privacy.
 - Created a clean, responsive UI with React.js, enhancing user interaction and data visibility.
- Camly- Group Video Calling App** | *WebRTC, PostgreSQL, TypeScript* its-shivam1008.github.io/camly
- Created a clean, responsive UI in React.js to support smooth user experience across devices.
 - Implemented a passcode-protected entry system where students send a join request and teachers approve enrollment, reducing intrusions by over 80%.
 - Developed backend with Express.js and Prisma ORM, managing enrollments, sessions, and class lists efficiently.
 - Leveraged WebRTC and Socket.io for real-time communication and mediasoup for efficient media streaming, ensuring smooth and reliable group video calls.
- Voting app** | *JavaScript, React, Nodejs, MongoDB* vote-govern.vercel.app
- Designed the Front-End with TailwindCSS for a responsive and visually appealing UI.
 - Created and optimized APIs using Express.js for seamless back-end functionality and quick load times.
 - Incorporated real-time voting results, improving data accuracy and performance by 10%.
