To secure a challenging position in a reputable organization to expand my learnings, knowledge, and skills.
Seeking an entry-level position to begin my career in a high-level professional environment.

Experience

VVDN Technologies Pvt Ltd

14/06/2022 - 14/02/2023

Embedded intern
Work on 5g technology and Data center

- Designing and implementing software of embedded devices and systems
- Designing, developing, coding, testing and debugging system software
- Support software QA and optimize I/o performance

Education

CBSE

High School
2016 — **8.6 cgp**
First Division

CBSE

Intermediate
2018 — **First Division**

Abdul Kalam Technical University

B.tech in Electronic and communication engineering
2022 — **7.7 cgpa**
First Division with distinction

Skills

- Good in C programming
- Good working knowledge in Linux commands
- Good knowledge of electronic.
- Good knowledge of Microprocessor and Microcontroller.
- Good Knowledge of controlled device using SPI, UART, I2C interfaces

Projects

Ultrasonic Range Detector

An ultrasonic sensor is an electronic device that measures the distance of a target object by emitting ultrasonic sound waves, and converts the reflected sound into an electrical signal.

Third Eye for Blind person

This device uses the audio and vibration signal to alert the people about the upcoming obstacle in his path. The device generates beep sound when any object comes in front of device holder person and as the distance of object is decreased the sound from the gadgets is increased and vibration is also started.

Language

Hindi, English
