PROJECT-

➤ E-commerce website

Online shopping enables the users to visit the website. The online shopping website and web application is intended to provide a complete solution single gateway using the internet as the sole medium during the pandemic. It enables vendors to set up online customers can browse their website and purchase them online without visiting physically.

- Worked with a 3-member team for accomplishing the project.

➤ Personal Portfolio Website

I develop the portfolio website. For its development I used Html, CSS, Bootstrap and JavaScript. This website will carry all the information (My Documents, My Project, My Certification and My C.V) about me. So that everyone can access it.
