Experience

Full Stack Developer Intern
Almanet Professional Services, Indore
Dec 2024 – Apr 2025

- Worked on a live project itfocus.in, a platform for freelancing, jobs, training, and internships.
- Developed dashboards and pages for freelancers/employers using Next.js, React.js, and MySQL.
- Used React Hook Form, React Query, and modular components for optimized UI.
- Integrated APIs and handled role-based logic in a production-grade application.
- Strengthened full-stack skills through real-world development and deployment.

Projects

Clank

Personal Project | [GitHub](#) | Apr 2025

- Built to enhance full-stack skills using **Next.js, TypeScript, PostgreSQL, Redis, Docker, Prisma, PostgreSQL, Socket.io**.
- Users can post two images; others vote and leave messages to justify their preference.
- Implemented robust Authentication & Authorization, clean component architecture, and job queues.

Hotel Booking Website

Personal Project | [Live Demo](#) | Mar 2025

- Developed a hotel booking platform using the MERN stack with secure, real-world booking features.

- Integrated JWT Authentication, booking calendar, and responsive UI.
- Tech Stack: **React.js, Node.js, Express.js, MongoDB, Tailwind CSS.**

Old Community Support Platform

Academic Project | [Live Demo](#) | Aug 2024 – Nov 2024

- Created a platform to connect elderly individuals with NGOs and medical support.
- Enabled real-time chat and voice interaction using **Socket.io**.
- Tech Stack: **EJS, Node.js, Express.js, MongoDB.**

Online Grocery Selling Platform

Major Project | Dec 2022 – Mar 2023

- Built an online grocery ordering system enabling shop-wise browsing and pickup scheduling.
- Improved user convenience and helped shopkeepers establish an online presence.
- Tech Stack: **HTML, CSS, JavaScript, PHP, MySQL**
- Role: Full Stack Developer | Team Size: 2

Skills:	Tools and Technologies
JavaScript Scripting Language	JavaScript (Vanilla JS, ES6+), TypeScript
Frontend Technologies	ReactJs, UI/UX, Redux, TailwindCSS, NextJs, Npm Packages
Backend Technologies	NodeJs, ExpressJs, API Handling, Socket.io, Redis, Kafka, Clerk, Prisma(ORM), Validation, Error handling
Development Tools	Git/Github, Docker, AWS
MongoDb	NoSql Queries, filtering, searching, sorting, aggregation pipelines
PostgreSql	Sql Queries
JAVA Programming Language (Standard Edition)	Core Concepts of JAVA
Python Programming Language	Core Concepts of Python
Core PHP	Core PHP
React Native	Mobile App Development

Weakness:

- I put all effort to complete taken task or to solve any problem never leave any incomplete work
- I can be a perfectionist, which sometimes slows down my progress as I strive for flawless results.

Strength:

- Problem Solving
- Time Management
- Hard Working
