Professional Summary

Want to Work in Professional Environment Where I am able to give best of mine and can enhance my skills according to Latest Technologies. Currently Exploring about Data Science and Machine Learning.

Technical Skills

- **Languages:** Java, Python , C , HTML5, CSS3, JavaScript.
- **Developer Tools:** Git, GitHub, VS Code, IntelliJ IDEA, Postman, RESTful APIs.
- **Data & Visualization Tools:** Power BI, MS Excel (Dashboards , Pivot Tables , Data Cleaning)
- **Additional Skills:** Technical Documentation, Project Management, Public Speaking, Content Creation.
- **Frameworks & Libraries:** React.js.
- **Core Skills:** Object Oriented Programming , DBMS, SQL.

Education

Maharana Pratap Engineering College, Kanpur	2022-2026
<i>B.Tech in Computer Science Engineering</i>	<i>CGPA: 7.33/10.0</i>
Maa Svm Inter College , Kanpur	2021-2022
<i>Intermediate in Physics, Chemistry, Mathematics</i>	<i>Percentage: 70%</i>
An Ambedkar Inter College, Kanpur	2019-2020
<i>High School</i>	<i>Percentage: 75%</i>

Projects

Blockchain-Based Pension Management System

Solidity | Ethereum | Web3.js | | HTML | CSS | JavaScript | SQL |

- I Developed and Deployed smart contracts to automate pension rules and payouts.
- Integrated Web3-based authentication to eliminate fraud and central database dependency.
- Conducted testing and optimization to reduce gas consumption and improve reliability.

Indian Tourism Website — Personal Project

HTML | CSS | JavaScript | React JS |

- I Developed a fully responsive tourism landing page showcasing attractions, Culture, and experiences across India.
- Implemented modern UI/UX design with optimized layout, smooth navigation, and multimedia content.
- Improved loading performance using asset optimization and structured component design.

Experience

React JS Intern — Celebal Technologies

May 2025 – July 2025

- I Completed Celebal Summer Internship'2025 focusing on React JS Development.
- Worked on building responsive UI components and improving frontend functionality.
- Gained hands-on experience with accuracy, clarity, and strong conceptual understanding.

Subject Matter Expert (Physics) — Chegg India Pvt. Ltd. (Remote)

Jun 2024 – Nov 2025

- I Solved Physics Related Problems for Global Students and Providing Clear, Step-by-Step Explanations.
- Also Ensured High-Quality academic content with >X% accuracy and adherence to Chegg's guidelines.

Certifications

- Advanced Python Certified — HackerRank
- Power-BI 30-Days Course — Skill-India Msme Certified
- Participated in Techkriti Event 2024 — IIT Kanpur
- 160 Days of Problem Solving Challenge- GeeksforGeeks

Achievement

- **Elite Certification , Programming in Java – IIT Madras (NPTEL), 2025** I Secured **90%** with Top performance in both assignments and Proctored Exam
- I Achieved **95.41 Percentile** in **Naukri Campus Young Turks 2025**, Earning a Certificate of Merit recognized by top industry partners.
- Runner-up at HackNext 25 Hackathon ,We demonstrating problem-solving and competitive programming skills
- **I Solved 300+ Algorithmic Problems Over Leetcode, GeeksforGeeks and Codechef.**
- I Completed the **SQL 50 Days Challenge**, and Showcasing Proficiency in writing efficient SQL queries and Solving real-world database problems.
- Our Team "**CodeX**" Qualified Internals of "**SMART INDIA HACKATHON 2025**"

Co-Curricular Activities

- I am Organizer of Multiple Seminars/Webinars at College
- Winner of Carrom Event Hosted in Kanpur.
- Recently Work as Co-Ordinator in a College Sports Event.

ADDITIONAL INFORMATION

- Available for immediate joining and open to relocation
- I have Strong Passion for learning emerging technologies and Frameworks
- Proficient in technical documentation and code review processes
