Summary :

Experienced React js Developer with 0.8 years experience , seeking an mid level experience software engineer position. Skilled in Javascript, React.js, HTML CSS and Firebase cloud, with a focus on building dynamic and user-friendly web applications using clean and maintainable code practices. A collaborative team player with strong communication skills and a passion for creating exceptional user experiences. Continuously learning and staying updated with industry trends, and seeking opportunities to contribute and grow in a dynamic and challenging environment.

Experience :

React developer • IPH Technologies - A Software & Mobile App Feb 2023 - Present

- Developed highly-responsive user interface components using React concepts, resulting in improved user engagement and satisfaction.
- Implemented React JS, Redux, Hooks, Flux, and Javascript (ES6) to create seamless and efficient user interfaces.
- Utilized Bootstrap, Material UI, and CSS to enhance the visual appeal and usability of web applications.
- Collaborated with Node JS, HTML, and CSS to ensure smooth integration of front-end components with back-end infrastructure.

Research Engineer & Trainer • SMFO Aeronautics Private Limited. Nov 2022 -Feb 2023

Researched, trained, and provided instruction on robotics and drones, enhancing technical knowledge and skillsets. Developed comprehensive training programs, resulting in improved efficiency and productivity. Implemented innovative methodologies, leading to the successful adoption of new technologies. Collaborated with teams to identify training needs and deliver tailored programs, fostering a culture of continuous learning.

Associate analyst • Lenskart Solutions Private Limited Nov 2020 - Jan 2022

- Engaged in project forums and meetings, effectively communicating ideas and actively participating in discussions.
- Demonstrated expertise in optimizing existing processes, resulting in increased efficiency and productivity.
- Consistently provided valuable feedback on tools and processes, contributing to continuous improvement efforts.

Education :

B.tech • Sir Chhotu Ram Institute of Engineering and Technology	May 2015 - May 2019
Computer Science • Grade: 65%	
Intermediate • Anjani Convent Inter College Nagara	Mar 2012 - Mar 2013
Science • Grade: 72%	
High School • Govt school Ramnagar	Mar 2010 - Mar 2011
Science • Grade: 70%	

Projects :

Your Land Loans Live Project June 2023 - Present

IPH Technologies - A Software & Mobile App Development

I played a key role in developing and enhancing the project's UI. I was responsible for daily tasks such as UI development, feature implementation, and bug fixing. Utilizing technologies like React JS, JavaScript, HTML, and CSS, I contributed to creating a user-friendly web application for managing rental properties and facilitating communication between landlords and tenants. Through collaborative efforts.

Award Management System Live Project

IPH Technologies - A Software & Mobile App Development

- Identified and resolved bugs and issues within the AMS project, ensuring optimal functionality and performance.
- Developed new features and enhancements for the AMS project, improving user experience and functionality.

Firebase Push Notification

IPH Technologies - A Software & Mobile App Development

- Developed a groundbreaking Firebase Push Notification project in React JS to achieve real-time notifications in web applications.
- Utilized Firebase Cloud Messaging (FCM) to enable the delivery of targeted messages to users across various devices.

Technical Skills :

JavaScript: React Js, Html, CSS, Sass, Tailwind CSS, Redux toolkit, Hooks, EcmaScript6, flux, Firebase cloud, Bootstrap, Material-UI, Formik, My SQL
