EDUCATION

•Master of Computer Application

Harcourt Butler Technical University, Kanpur

2022-24

CGPA: 8.76

•Bachelor of Computer Application

University Of Lucknow, Lucknow

2019-22

Percentage: 75.6

SKILL HUNKS (INTERNSHIP)

Metro Ticket Booking System [Live Demo]

Technologies: MERN Stack (MongoDB, Express.js, React, Node.js), JWT, Stripe, QR Code API

Key Implementations:

- Architected full-stack application with React frontend and Express/Node.js backend, following MVC pattern
- Implemented secure JWT authentication with refresh tokens and role-based access control
- Designed RESTful API endpoints for station management, booking operations, and fare calculations
- Integrated Razorpay payment gateway with webhook handling for payment verification
- Built responsive admin dashboard with real-time booking analytics and station management
- Implemented automated email notifications using NodeMailer for booking confirmations

PERSONAL PROJECT

Food Ordering Platform [Live Demo]

Technologies: MERN Stack, Redux, Payment Gateway, Cloud Deployment

Key Implementations:

- Developed full-stack application with responsive UI using React and Redux for state management
- Built secure authentication system with password hashing and JWT tokens
- Created RESTful APIs for restaurant management, order processing, and user operations
- Designed optimized MongoDB schema for efficient data retrieval and relationships
- Deployed application using Vercel for frontend and Render for backend services

TECHNICAL EXPERTISE & ACHIEVEMENTS

- **Data Structures & Algorithms:** Solved **400+** questions on LeetCode (**Profile**), demonstrating strong problem-solving skills
- **Open Source Contribution:** Successfully participated in Hacktoberfest 2023, contributing to multiple repositories
- **System Design:** Implemented scalable architectures in projects, focusing on high availability and performance
- **Certifications:** Web Development (**Internshala**), Responsive Design (**FreeCodeCamp**)

TECHNICAL SKILLS

Programming Languages: JavaScript (Node.js), C++

Backend Development: Express.js, RESTful APIs, Authentication, Payment Integration

Databases: MongoDB, MySQL, Database Design Optimization

Development Tools: Git, GitHub, Postman, VS Code

System Design: Microservices, API Design, Performance Optimization

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems, Software Engineering

Soft Skills: Problem Solving, System Architecture Design, Team Collaboration, Technical Documentation
