

Vivek Singh

React.js Developer

Phone: 9621946606 | Email: vek.sgh@gmail.com | Location: Noida Sector-62, Uttar Pradesh, India

LinkedIn: <https://www.linkedin.com/in/viveksingh097> | Portfolio: <https://protfoliovivek.netlify.app>

Professional Summary:

Detail-oriented Frontend Developer with 3+ years of experience specializing in modern JavaScript frameworks, particularly React.js, Redux, and Next.js. Proficient in building scalable, reusable, and high-performance front-end architectures with a strong focus on user experience, responsive design, and performance optimization. Proven track record of delivering enterprise-grade applications in domains like Payroll, Licensing Systems, and Inventory Management.

Core Skills:

Frontend: React.js, Redux, Next.js, React-TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS, Bootstrap, Tailwind CSS

State & Data: Redux Toolkit, Context API, API Integration (REST)

Tools & Platforms: Postman, Git/GitHub, VS Code, IIS Server

Best Practices: Component Reusability, Performance Optimization, Responsive Design, Code Reviews

Professional Experience:

Frontend Developer

Excellent Softwares, Noida | Aug 2022 – Present

- Developed modular and scalable React.js frontends using Redux and Context API, ensuring maintainable and reusable code structures.
- Delivered enterprise-grade projects such as Dealer & License Management System (DMS & LMS), Payroll Management System, and Collection Engine, resulting in improved system performance and user satisfaction.
- Optimized application performance by reducing load times by 20% and decreasing bug rates by 30% through efficient coding and testing practices.

Software Developer Intern

Asmadiya Technologies, Pune | Feb 2022 – Jun 2022

- Contributed to the development of internal onboarding systems and banking applications using React.js, focusing on component design and API integration.

Trainee Software Engineer Intern

Gorai Technology, Bengaluru | Aug 2021 – Dec 2021

- Gained practical experience in microservices architecture, AWS cloud services, and class-based React components, enhancing application scalability and reliability.

Key Projects:

Payroll Management System

Tech Stack: React-TypeScript, Redux, Bootstrap, SASS

- Designed and developed complete payroll modules including Leave, Loan, Gatepass, Advance, Attendance, Salary Slip, and Approvals.
- Implemented reusable React components and secure state management for efficient and reliable user workflows.

Dealer & License Management System (DMS & LMS)

Tech Stack: React.js, Context API, Bootstrap, CSS3

- Engineered a comprehensive dealer and license management system supporting authentication, role-based access control, and dynamic dashboards.
- Optimized data handling and front-end performance for seamless user experiences.

Capital Infosys Inventory System

Tech Stack: React.js, Redux, Bootstrap

- Developed core modules for Inventory & Transaction Management including PO, MRN, QC, Sales, and Delivery handling.
- Ensured real-time updates, multi-user operations, and high-performance front-end design **using optimized React architecture.**

Education:

B.Tech in Computer Science & Engineering
Shri Ramswaroop Memorial University | 2016 – 2020
