Higher Secondary Certificate

Lucknow, UP

Seventh Day Adventist Senior Secondary,School

Mar. 2016 – Mar 2017

Secondary School Certificate

Lucknow, UP

Experience

Oasis Infobyte

Feb 2022 – Mar 2022

Web Development Intern

Work From Home

- During the course of this internship, we were assigned three distinct tasks that provided us with a valuable opportunity to gain practical experience in the field of web development. Our primary focus revolved around utilizing HTML, CSS, and JavaScript to effectively complete these tasks.
- I have successfully developed a professional Landing Page utilizing HTML and CSS, delivering an engaging and visually appealing user experience.
- I have successfully developed a Personal Portfolio utilizing HTML and CSS, showcasing my skills and achievements in a visually appealing manner.
- I successfully developed a Temperature Converter website utilizing HTML, CSS, and JavaScript, showcasing my proficiency in web development technologies.

Projects

Newsletter Plugin | ReactJs, NodeJS, ExpressJS, MongoDB

July 2022

- Developed a Newsletter Plugin project with a user-friendly interface that allows website owners to easily integrate a newsletter feature.
- Implemented a login system to generate a unique plugin key for each user, enabling them to securely access and utilize the Newsletter Plugin on their websites.
- Utilized HTML integration by providing users with a generated plugin key, enabling them to seamlessly paste it into their website's HTML code and effectively send emails and updates to their subscribers.
- Ensured efficient communication and delivery by designing the Newsletter Plugin to handle subscriber management and distribution of website updates seamlessly.

Personal Portfolio | HTML, CSS

March 2022

- Developed a personal portfolio showcasing my skills, achievements, and other relevant information about myself.
- Utilized HTML, CSS, and JavaScript to design and structure the portfolio website.
- Incorporated interactive elements and animations to enhance user experience.

Temperature Converter | HTML, CSS, JavaScript

March 2022

- Developed a temperature converter website utilizing HTML, CSS, and JavaScript.
- Implemented functionality to convert temperatures between Fahrenheit and Celsius.
- Ensured a user-friendly interface and intuitive design for a seamless temperature conversion experience.

Chat Application | ReactJS, MongoDB, Express, NodeJS

May 2023

- Developed a chat application utilizing the MERN Stack technology, facilitating communication between end-users. The application includes group messaging functionality and enables individual users to exchange messages with one another seamlessly.
- Implemented a robust chat application using the MERN Stack, empowering users to engage in group conversations and one-on-one messaging. The platform offers a user-friendly interface for effective communication and serves as a reliable medium for seamless interactions between end users.

Technical Skills

Languages: C++, Java, Python, PHP, HTML/CSS, JavaScript, MySQL, MERN

Developer Tools: VS Code

Technologies/Frameworks: GitHub

Leadership / Extracurricular

Technical Club

Dec 2019 – Present

Head of the Club

BBDNIIT

- Held the position of Head of Technical Club at BBDNIIT, responsible for organizing various events and raising awareness among students.
- Managed the technical club's activities, including event planning, coordination, and ensuring student participation.
- Led a team of 150+ students as the core coordinator of the technical team for college events, ensuring smooth coordination and execution.
