GfG

## CAREER OBJECTIVE

A highly motivated and hardworking individual looking for a responsible role in a reputable organization. To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

## PROJECTS

### Voice-Enabled Expense Tracking System

- React with Vite Build Tool: The project is built using React for the UI, and Vite as the fast and modern build tool to optimize development and performance.
- Voice-Enabled Input: Users can add expenses through voice commands, making the system highly accessible and user-friendly.
- Graphical Expense Overview: Displays expenses in an intuitive graph format, allowing users to easily track and analyze their spending trends.

**Teck - Stacks:** React with Vite, Tailwind CSS

### Gemini - Clone Web App

- This Gemini AI Clone project uses React and JavaScript to develop an interactive, AI-powered application that simulates conversational AI behavior.
- It demonstrates real-time data handling and dynamic UI updates, ensuring a seamless user experience.

**Teck - Stacks:** React JS, Node.js, CSS

### Personal Portfolio Website

- The "Professional Portfolio" website, built with HTML, CSS, and JavaScript, showcases work and personal narrative, presenting projects, skills, and contact information.
- It aims to enhance networking, career advancement, and skill development, fostering meaningful professional connections.

**Teck - Stacks:** HTML, CSS, JavaScript
