

PURNIMA SINGH

DATA SCIENCE

Lucknow,U.P. ll purnimasingh942@gmail.com ll 7007609081

SUMMARY

I am an adaptable undergraduate in Computer Science Engineering with the strong interest in data analysis and business analytics .Proficient in MY SQL, MS Excel ,Python and Power bi . I excel at transforming data into actionable insites. My experience include exploratory data analysis and dashboard creation ,complemented by strong problem solving skills. I eager to apply my expertise and data and business analytics to drive impact full decision making.

EDUCATION

Bachelor's degree

S.R institute of management and technology lucknow(AKTU)

Bachelor of technology in computer science and engineering (2020-2024)

8.08cgpa

Intermediate

Kendriya vidyalaya CRPF bijnaur lucknow

70.02%

High school

Kendriya vidyalaya CRPF bijnaur lucknow

9.08cgpa

ACHIEVEMENTS

- **1st rank in debate competition at institute level won cash prize and trophy.**
- **Represent school at national children science congress confrence in KV IIT Kanpur at regional level.**
- **2nd Rank in mock interview , group discussion and add mad show at manager's day event.**
- **Won silver medal in kho kho at regional level (AKTU).**
- **Sql advanced certificate from hacker rank and solve 50 sql questions on leetcode.**

LEADERSHIP EXPIRIENCE & INTERNSHIP

Co-ordinate technovation - 2022 may

Script writing , anchoring, choreograph drama and successfully organized with my team mates.

Supervise mime drama -2021 november

Choreograph ,Theme selection , sucessfully conducted in short span of time.

Virtual internship-2024 november

Data analytics and visualization virtual internship accenture.

PROJECTS

Conducted data analysis on e-commerce datasets to uncover actionable insights for business growth - 2024 june

Tools Used: SQL, Jupyter Notebook.

- Queried and manipulated large datasets using SQL to analyze sales trends, customer behavior, and product performance.
- Developed data visualizations to highlight insights and trends in customer demographics, seasonal sales patterns, and product popularity.
- Provided strategic recommendations based on data insights to support decision-making for marketing and inventory management.

Facial recognition system to automate the attendance process by detecting and recording attendees-2023 nov.

Tools Used: Python, Machine Learning, Deep Learning, Excel

- Implemented machine learning and deep learning models to recognize and verify faces with high accuracy.
- Built a Python script to capture real-time images, match faces with stored records, and mark attendance.
- Automated data storage in Excel, enabling easy tracking and analysis of attendance records.

TECHNICAL SKILLS

Programming language: •Sql • Python **Data manipulation:** •Pandas •Numpy **Data visualization:** •Matplotlib •Seaborn

Tools&platforms:•Jupyter notebook • Excel **Data analysis:** •Statistics •Data cleaning •Data modeling

FREELANCING AND VOLUNTEERING

Volunteer | Heartfulness Meditation Center-2023 october

- Role: Meditation Facilitator/Support Volunteer. Assisted in organizing meditation sessions and workshops, guiding participants to explore mindfulness and personal growth.

Freelance | Testbook -2021 august

- Developed high-quality content tailored to online learning, helping students prepare for competitive exams.

Participant | Scout and Guide 4-Day Camping -2017 april

- Gained hands-on experience in outdoor survival skills, including camping , navigation, and first-aid ,personal growth.
