Summary — Results-driven **QA Engineer** with **3+ years** of experience in Finance, Traffic, and Hotel-based projects, ensuring 100% **GDPR compliance** on the required projects. Skilled in core **Manual** and **API testing**, successfully reducing defects by 30% and improving software performance by 25%. Rigorously performing functional, regression, and API testing to deliver high-quality web and mobile applications. Strong team collaborator, working closely with cross-functional teams to identify and resolve issues

Skills

Automation Selenium, SelectorsHub, GitHub
Languages SQL, Python, HTML, CSS
OS Windows, MacOS, iOS, Android
Policies PCI, GDPR,

Manual BlackBox Testing, End-to-End Testing, Regression-Re-Testing, Smoke-Sanity testing, Integration testing, Mobile Testing, API Testing

Tools

Bug Reporting JIRA, Google Sheets
Database MongoDB, TablePlus
API Postman, Swagger, Browser Console
Screen Sharing Vysor, Ssrcpy

App Android Studio, Xcode, Flex, Pandora, instabug, Firebase
IDE PyCharm

Experience

Cropsly Solutions Pvt. Ltd, Zirakpur, Punjab

Dec 2022 – Till Date

QA Engineer

Appreciations – Awarded “**Standout Performer of the Year**” for consistently exceeding performance metrics and delivering exceptional results throughout the year

Projects: **Web**-Hotel Aggregator Website, Loan/Finance Based Project, Wordpress/php based websites, **Mobile**- Europe Based Parking Applications, Traffic applications

- Followed **AGILE methodology** in all the projects, ensuring timely completion of 10+ sprints. Regularly took updates from a team of 8 members in the absence of the Team Lead, maintaining a 95% on-time delivery rate.
- Tested 5+ web projects and API flows, including response time analysis, to ensure bug detection accuracy and reduce rework. This proactive approach resulted in a 15% decrease in reported defects and improved overall testing efficiency by 20%.
- Tested the pricing logic for the **Hotel Pricing Engine module**, including complex mathematical calculations, which led to **zero production bugs**. Ensured accuracy in pricing outputs and reduced post-deployment issues, which contributed to an improvement in project reliability.
- Performed end-to-end **Mobile Testing** for 3 applications, ensuring comprehensive coverage across multiple platforms. Utilized **Flex/Pandora** tools to identify API issues, reducing API-related defects by 25% and improving application stability by 15%. Conducted regular testing cycles to ensure timely detection of issues, contributing to **100% on-time releases**.
- Prepared comprehensive **Regression Suites** and **Sanity Checklists** for both web and mobile applications, covering 100% of critical functionalities. Streamlined the testing process, leading to reduction in testing time and ensuring consistent quality across releases. Conducted regular reviews to update and enhance testing documentation, improving team collaboration and efficiency
- Conducted **API testing** as needed, executing 20+ test cases to validate **RESTful** and **SOAP APIs** for functionality, reliability, and performance. Employed tools such as **Postman** and **Swagger** to ensure seamless integration and response accuracy. Identified and documented issues, collaborated closely with development teams to troubleshoot API-related concerns, which led to improving response time and data integrity.
- Investigated and replicated **user-reported** issues/bugs promptly, ensuring **accurate documentation** and **swift communication** with developers for immediate resolution. This proactive approach **minimized downtime** and accelerated the bug-fixing process, leading to a 20% reduction in resolution time and adding to customer satisfaction.

Zomato - (On Third Party Payroll, Lucknow)

June 2021 – November 2022

Test Executive

- Conducted comprehensive application testing utilizing **Black Box Testing** techniques to validate functionality and user experience
- Created, updated, and reviewed **100+ test cases** and **test scenarios** to ensure comprehensive test coverage for web-app, resulting in a 15% increase in test efficiency and improved defect detection rates.

- Tracked and reported defects using **JIRA** and **Google Sheets**, efficiently managing bugs throughout the project lifecycle. Utilized **Google Forms** to streamline bug reporting from team members, ensuring prompt communication and resolution.

North Central Railways, Allahabad (On Contract Basis)

Nov 2018 – Nov 2019

Technical Assistant

- This was a non-IT job. Ensured the maintenance, periodic overhauling and successful operation of rail track machines.

Datalogies Services (On contract with: IndiaMART InterMESH Limited, Noida)

Mar 2015 – Mar 2016

Junior QA

- Responsible for reviewing entries made by agents to ensure accuracy and compliance with established guidelines. Compiled and submitted detailed reports to the Team Lead, highlighting discrepancies and performance metrics.

Education

Prof. Rajendra Singh University(PRSU), Prayagraj

2021-2024

B.Sc in Computer Application

Board of Technical Education, UP - Lucknow

2015-2018

Diploma in Mechanical Engineering

UP State Board

2013-2014

Intermediate

UP State Board

2012-2012

High School

Certifications

- QA Manual Testing with Live Project + AGILE + JIRA (10.5 Hours)

Hobbies

- Love to play musical instruments, completed Sangeet Prabhakar in Indian Classical music from Prayag Sangeet Samiti, Allahabad.
