English

Hindi

Istiyak Alam

Front-End (React.js) Developer

Address :- Purani quazi mohalla, Nawadih road, Aurangabad, Bihar,
824101

About Me :-

I'm a new Front-End Developer who's just learned React.js. I'm eager to create websites and apps that look nice and work well. I'm starting to turn design ideas into real websites and I'm learning how to make sure they work on different devices and browsers. I'm excited to work with others and learn more about tech to make awesome things and help businesses grow.

• Projects

• React Newsapp [\(Link\)](#)

This react Newsapp fetch news articles from an API. Users may be able to filter news articles by categories such as sports, technology, Built with a mobile-first approach, the app is fully responsive and works seamlessly across various devices, including desktops, tablets, and smartphones.

• React Fitness app [\(Link\)](#)

Developed FitLife, a comprehensive fitness application using React. The app features personalized workout plans, real-time progress tracking, nutritional guidance, and community support. Designed for both web and mobile platforms, ensuring a seamless and engaging user experience.

• React Wedding album

Developed a dynamic wedding album application using React, designed to showcase and share wedding memories elegantly. The app features customizable photo galleries, interactive slideshows, and video integration. Utilized state management with Redux for efficient data handling and implemented responsive design principles to ensure seamless across devices
