SUMMARY

Enthusiastic and driven with a strong foundation in software development, eager to contribute to a dynamic team. Seeking an software developer role in your organization to apply my coding, problem-solving, and analytical skills while continuously learning and enhancing my technical expertise in real-world projects.

KEY SKILLS

- **Programming Language:** C, Java, Python
- **Data Structures and Algorithms**
- **Frontend:** HTML, CSS, JavaScript, ReactJs, Bootstrap, Tailwind
- **Backend:** NodeJs, ExpressJs
- **Database:** MySQL, MongoDB
- **Miscellaneous:** Git, GitHub, EJS, REST APIs

EDUCATION

B.Tech | CSE | Buddha Institute of Technology, Gida Gorakhpur
XII (ISC Board) | St. Joseph's School, Gorakhpur
X (ICSE Board) | St. Joseph's School, Gorakhpur

CGPA: 8.23 / 2025'
85% / 2021
78% / 2019

PROJECTS

- **Drive Ease (Full Stack Web-based Application) | EJS, CSS, JavaScript, Node, Express, MongoDB**

Built an immersive web application inspired by Zoomcar, providing a platform for listing rental cars nearby.

- Features: Integrated user authentication and authorization to ensure secure access. Developed comprehensive RESTful services for seamless data interaction and management. The application includes rich user profiles, interactive cars listings with detailed descriptions and images, and a streamlined booking process to enhance user satisfaction.

- **Rapid Nosh (Digital platform for ordering food in restaurants) | HTML, CSS, JavaScript, Bootstrap, firebase**

Build an interactive concept design for the online food ordering system while sitting in restaurants.

- Features: An online ordering system for restaurants features a user-friendly interface, real-time menu updates, multiple payment options, and order tracking. It allows customizable orders, integrates loyalty programs and discounts, supports reservations, and provides analytics for tracking sales and customer preferences, all accessible across web and mobile platforms.

- **Miricanvas.com Clone | HTML, CSS, JavaScript, Bootstrap**

Implemented a responsive design of the miricanvas.com website clone.

- Highlights: Developed a responsive website clone of miricanvas using HTML, CSS, Bootstrap, and JavaScript. The project focused on replicating the original site's design and functionality, enhancing front-end development skills and achieving a high level of design fidelity to fit on all screen sizes.

- **Simon Says Game | HTML, CSS, JavaScript**

Created a sequence-remembering game with a simple, user-friendly interface, making it accessible for players of all ages.

- Highlights: Designed an engaging gameplay experience with vibrant visuals and intuitive controls, enhancing player enjoyment. The game features dynamic feedback and sound effects, making the gameplay more immersive and fun.

ACHIEVEMENTS

- Awarded Third Place in a college coding competition focused on Data Structures and Algorithms.
- Emerged victorious in a college competitions focused on Web Development.
- Awarded by a participation certificate in Google Developers Student Club Hackathon at MMMUT.
- Certified by NPTEL in "Problem-Solving through Programming in C".
- Gold Medal in Cyber Olympiad in school.
