SUMMARY

Motivated B.Sc. graduate actively pursuing Full Stack Web Development training at AccioJob. Proficient in developing Java applications, implementing Data Structures and Algorithms, utilizing SQL, and adhering to clean code practices. Demonstrated aptitude for quick learning, effective teamwork, and possessing robust analytical and problem-solving skills.

EDUCATION

2021 - present **Master of Science** in Botany from Dr. Rammanohar Lohia Avadh University, Ayodhya.
2018 - 2021 **Bachelor of Science** in Science from Dr. Rammanohar Lohia Avadh University, Ayodhya.

EXPERIENCE

Full Stack Web Development Training from AccioJob Oct 2022 - present

- Actively learning and mastering Data Structures and Algorithms (DSA), Java, Spring Boot, JPA Hibernate and DBMS through practical application in real-life projects.
- Demonstrating commitment to professional growth by collaborating with top **MNCs employees** on real-life projects, gaining practical experience and insight into industry best practices.
- Adaptable and quick to learn new technologies, ensuring efficient code development and contributing to the successful completion of projects within tight deadlines.

PROJECTS

Book My Show (Self-Learning Project) July 2023

- This is an end-to-end Ticket Booking Management System, storing the information of Movies, Theatres, Shows, Seats, Tickets etc, along with **Swagger UI and Email integration** it has **10+ APIs**.
- Technology : **Spring Boot, Tomcat, JPA, Hibernate(MySQL DB), Apache Maven, IntelliJ and Postman**
- Source Code Link : [/Amit8127/Book-My-Show](#) [Readme file]

Vaccination Management System (Self-Learning Project) June 2023

- Keeps a record of Doctors, Users, Vaccination centres, Book appointments, Doses given to users and it has **20+ APIs**.
- Technology : **Spring Boot, Tomcat, JPA, Hibernate(MySQL DB), Apache Maven, IntelliJ and Postman**
- Source Code Link : [/Amit8127/Vaccination-Management-System](#) [Readme file]

Student Result Management Application (Self-Learning Project) April 2023

- The application allows **secure login for admins** to manage data by **adding, editing, and deleting** results, while students can **view results** by Roll Number and Date of Birth.
- Technology : **Java, Java Swing, Apache Ant, MySQL and Object-Oriented Programming (OOPs)**.
- Source Code Link : [/Amit8127/Student-Result-Management-System-Portal](#)

SKILLS

Technical Skills **Data Structures and Algorithms, HTML5, CSS3, Bootstrap5, Java Script, Java, Spring Boot, JPA Hibernate(MySQL), Microservices architecture, API's structure DB design, Object Oriented Programming, OS, Computer Networking and DBMS.**

Soft Skills Active listener, Communication, Leadership, Creativity, Problem-solving, Quick-learner and Teamwork.

Tools IntelliJ, VS Code, Eclipse, Postman, Git and GitHub.

CERTIFICATES

- Completed a comprehensive certificate program from Accenture, gaining valuable insights and practical knowledge in the **Developer Virtual Experience Program**. [Certificates](#)
- Attained completion certificates for comprehensive **DSA training in Java**, covering fundamental data structures, advanced algorithms, and graph theory. Demonstrated proficiency in problem-solving and algorithmic thinking. [Certificates](#)
- Successfully completed a comprehensive **SQL bootcamp**, acquiring proficiency in database querying, data manipulation, and database design. [Certificates](#)
