Education

Babu Banarasi Das University, Lucknow	July 2020 – July 2024
<i>Bachelor of Technology in Computer Science and Engineering</i>	<i>CGPA of 8.75 (80.74%)</i>
Hellens School, Sitamarhi Bihar	2018 – 2020
<i>12th CBSE Board</i>	<i>72.40 %</i>
SR DAV Public School, Pupri Bihar	2018
<i>10th CBSE Board</i>	<i>69.80 %</i>

Technical Skills

Language: C/C++, Java, JavaScript

Frontend Library / Framework: ReactJS

Backend Framework: Node.js, Express.js

Database: MongoDB, MySQL

Other: Git/GitHub, HTML, CSS, JSON, jQuery, Tailwind CSS, Bootstrap, Redux, API, VS code, MS Office

Projects

Mirrit | *Next.js, Typescript, MongoDB, Redux, Redux Toolkit, and Firebase* [GitHub](#)

- Built a feature-rich website enabling users to connect and engage through posts, comments, and real-time chats.
- Built a scalable social networking platform, achieving 90% uptime and handling 1000+ user interactions daily with efficient CRUD operations and RESTful APIs.
- Implemented real-time messaging using Socket.io, reducing chat latency to <100ms, and added features like friendship request, group chatting, likes, and email-based account recovery.
- Designed a responsive UI with Tailwind CSS and SCSS, improving user engagement by 40% through interactive components and seamless navigation.

Movix | *ReactJS, JavaScript, Redux, Tailwind CSS, SCSS, TMDB API* [GitHub](#)

- Engineered a responsive website that delivered in-depth movie synopses, fetching data in real time using REST APIs from The Movie Database (TMDB).
- Designed a responsive and user-friendly interface using Tailwind, SCSS, achieving 100% mobile compatibility and improving user retention by 30%.

Weather App | *HTML, CSS, Tailwind CSS, JavaScript, REST APIs, Weather API* [GitHub](#)

- Developed a interactive weather forecasting app that allows users to check real-time weather for their location and for other locations with 100% accuracy, including air speed, humidity, and temperature.
- Integrated OpenWeatherMap API to fetch accurate data for 100000+ global cities, offering detailed weather insight with <1 second load time.
- Developed a mobile responsive interface using Bootstrap, improving user engagement and satisfaction by 30% with intuitive navigation and quick weather update.

Certificates

- Virtual Web Development Internship program at iNeuByte
- Software Engineering Virtual Program by Goldman Sachs
- Completed a Data Structure and Algorithm course with C++ provided by CodeHelp
- Career Essential in Generative AI by Microsoft and LinkedIn

Achievements

- 400+ DSA Problem solved of LeetCode & GeeksForGeeks
- Institution rank 3rd on GeeksForGeeks Coding Platform
- Placement Coordinator at BBD campus
- Member of Aaina Team in technical department at college campus
- Campus Ambassador at DevTown
