SUMMARY

I am a final-year B.Tech student with a strong foundation in full stack web development and AWS cloud computing. I have hands-on experience in HTML, CSS, JavaScript, and various modern web technologies. My recent training in AWS cloud computing has equipped me with practical skills in cloud infrastructure, including public and private networking. I have successfully completed internships where I applied my knowledge in real-world projects, showcasing my ability to build and deploy robust web applications and manage cloud environments effectively.

WORK EXPERIENCE

JS Technova — Remote, Lucknow | Software Engineer

Jan 2025 - Present

- Developing and maintaining software solutions using modern technologies and frameworks.
- Collaborating with cross-functional teams to analyze requirements and implement efficient solutions.
- Ensuring code quality through rigorous testing and debugging processes.
- Contributing to project planning, design, and execution in an Agile environment.
- Optimizing application performance and scalability for enhanced user experience.

GAOtek Inc. — Remote, USA | Web Development

Oct 2024 - Jan 2025

- Developed responsive and user-friendly web interfaces using HTML, CSS, and JavaScript.
- Worked on WooCommerce functionality, including AJAX-based features and contact form enhancements.
- Optimized frontend code for performance, ensuring fast load times and smooth user experience.
- Collaborated with teams in an Agile environment, contributing to timely project delivery.
- Implemented responsive design techniques to ensure compatibility across various devices and screen sizes.

PROJECTS

E-COMMERCE || A E-commerce Site

Live || Code

July 2024 – Aug

2024 Tech used- MERN

- User Authentication: Implemented secure user login and registration using JWT and O Auth.
- Product Management: Enabled CRUD operations for products, including sorting and filtering options.
- Shopping Cart & Checkout: Developed a robust shopping cart system with real-time updates and a seamless checkout process integrated with payment gateways.
- Responsive Design: Ensured a mobile-friendly interface with a responsive design approach using React.
- API Integration: Created RESTful APIs for backend operations, facilitating efficient data management and retrieval.
- Payment Integration: Integrated with popular payment gateways like Stripe/PayPal for seamless and secure transactions. Real-time payment processing with order confirmation.

Doctor Appointment System || Doc-App

Live || Code

July 2024 – Aug

2024 Tech used- MERN

- User Authentication: Implemented secure user login and registration using JWT and O Auth.
- Built RESTful APIs for appointment management (booking, rescheduling, cancellation) using Express.js and Node.js
- Utilized MongoDB with Mongoose for efficient database management and storage of appointments, doctors, and patient data.
- Responsive Design: Ensured a mobile-friendly interface with a responsive design approach using React.
- Created an Admin Dashboard for managing doctor schedules, viewing patient appointments, and user account control.

BlogApp || A Blog App.

Live || Code

Sep 2024 - Oct

2024 Tech used- MERN

- User Authentication: Implemented secure user login and registration using.
- Designed and implemented the frontend with the help of React.js.
- Developed backend services and APIs with Node.js and Express.js.
- Developed and maintained efficient CRUD (Create, Read, Update, Delete) operations, ensuring robust data integrity and streamlined user interactions.
- Created and managed MongoDB schemas for data storage.
- Ensured secure authentication with JWT.

SKILLS

- Language: Java, JavaScript, Python.
- Frontend: HTML, CSS (Bootstrap, MUI, Chakra UI), JavaScript (React.js).
- Database: MongoDB, MySQL.
- Curriculum: Operating Systems, Computer Networks, DBMS.
- Version Control: Git / GitHub / GitDesktop , Postman REST API, Vercel, Render.
- Tools & Frameworks: NodeJs, ReactJs, Express.js, AWS EC2 Instances, AWS VPC, AWS RDS.

CERTIFICATION AND TRAINING

• Certification: Postman API Fundamental Student Badge(Postman).	Aug - 2024
• Training: Ikigai Technology (AWS Cloud Services).	June 2024 – July 2024
• Certification: Python Essentials 1 Course (CISCO Network Academy)	July - 2024
• Certification: AWS Cloud Practitioner Essentials (AWS)	July - 2024
• Certification: Web development (Internshala)	May - 2022

EDUCATION

Babu Banarasi Das University Lucknow	
B.Tech in Computer Science Engineering (Specilization With CC & ML)	
• Average CGPA:(8.01)	
St. Xavier’s School Azamgarh	
• High School[67%]	2018-2019
• Intermediate[62%]	2020-2021
