SUMMARY

Positive, adaptable, and driven frontend developer with a solid foundation in computer science principles and a keen eye for user-centric design. Skilled in crafting responsive and intuitive interfaces using technologies like HTML, CSS, JavaScript, and modern frameworks such as React. Strong understanding of algorithms and data structures enhances problem-solving efficiency in UI development. Committed to leveraging technical and creative skills to contribute to innovative web projects and deliver seamless user experiences.

EXPERIENCE

SDE Intern

Bluestock Fintech

July 2024 - September 2024, Remote

- Created and implemented Client-side Frontend with MERN Stack.
- Contributed to the development of efficient code that optimized UI/UX functionality, resulting in a modern and user-friendly design.
- Partnered with developers in technology selection and implementation.

Web Development Intern

Digipodium

June 2024 - August 2024, Lucknow

- Utilized React, Node.js, and MongoDB to design interactive web elements, enhancing user engagement by 20%.
- Developed full stack applications with MERN stack, demonstrating enhanced skills by implementing advanced features within a fixed timeline.
- Collaborated in the development and deployment of responsive websites ensuring cross-browser compatibility.

PROJECT

My Portfolio Website

www.sahilali.me/

- Designed and developed a fully responsive personal portfolio website to showcase my skills, projects, and professional experience in a clean, user-friendly layout.
- Utilized React for dynamic component-based UI and Vite for fast development and build times, significantly improving performance and developer experience.
- Integrated Firebase for backend services such as secure hosting, contact form submission handling via Firestore, and authentication for future scalability.
- Prioritized accessibility and cross-device responsiveness using modern CSS techniques and mobile-first design principles.

JSON Visualizer

- Tech Stack: MongoDB, Express.js, React, Node.js (MERN).*
- Built a web application that allows users to paste, edit, and visualize JSON data in a readable and structured tree format.
- Developed backend APIs using Node.js and Express.js to optionally store, retrieve, and manage JSON snippets in a MongoDB database.
- Ensured error handling for invalid JSON input and provided intuitive feedback to guide users during data entry.
- Focused on performance and usability with a clean UI, responsive layout, and smooth tree expansion/collapse features.

EDUCATION

Bachelor of Technology

Integral University • Lucknow, Uttar Pradesh • 2025

- 8.5 CGPA

Intermediate

New Way Senior Secondary School • Lucknow, Uttar Pradesh • 2021

- CBSE - 87%

High School

New Way Senior Secondary School • Lucknow, Uttar Pradesh • 2019

- CBSE-88%

SKILLS

HTML , CSS , JavaScript , React , Express.js , Node.js , Next.js , MongoDB , Firebase , TailwindCSS , Bootstrap , C , Java , Figma , Software Development , Responsive Web design , Front end web development
