ACADEMICS

Radha Raman Engineering College(Bhopal) — Bachelors of Engineering in Computer Science
May, 2019 - June, 2023

TECHNICAL SKILLS

Languages: Python, React JS, Django **Web Development:** HTML, CSS , JavaScript

Database Technologies: MySQL, Oracle, Mongo DB

Tools: Git, GitHub, Microsoft SQL Studio, excel, net beans, Pycharm , jupyter-notebook

Soft Skills: Communication, Quick Learner, Time Management

EXPERIENCE

Python Internship, Maxgen Technologies, Ahmedabad, India

May 2021

Tech Stack Pycharm , DOS

- I gained knowledge about the essentials concepts of basic concepts and fundamentals, data-types of python and libraries in starting phase.
- Worked in a team of students and under one of the company's real-time employee, and implemented in a project

Machine learning Internship, Orena Solutions, Vadodara branch (remote)

2023

Tech Stack jupyter notes, anaconda

- I got proper guidance and path from company's seniors and learnt algorithms, models and how to implements them, and how to do exploratory data analysis, did a project on weather analysis.

PROJECTS

Athlete Intelligence HTML, CSS, Javascript, Python

- This project checks the Athletes body by introducing new schemes to the farmers and helping them by giving out the best solutions amidst pandemic and other causes.
- Using VR and IOT based simulators to detect the crops yield and warehouse temperature.

Dia-Bot- Diabetic Planner and Scheduler ([Github](#)) HTML, CSS, Angular, IBM Cloud, Netlify, IBM DB2, Python, Watson AI, Git, Linux

- This project intends to guide the diabetic patients to plan their diets and schedule an appointment to the clinics nearby.
- It is built on an ML algorithm to detect the type of diabetes and integrate into AI based chatbot and deploy website live with CI-CD pipelines integrated via IBM cloud and Netlify.

CERTIFICATIONS

- Network security IIT (Roorkee).
- Leadership cerificate in organizing techfest.
- Machine learning workshop (PDPU-Gandhinagar).

ACHIEVEMENTS

- Organized music fest and bands competition.
- Second award in hackathon(python and java based error solving competition) fest.
