Trainee Software Developer | Proven Track Record in Backend & Frontend Development

Objective

Dedicated and skilled Software Developer with over 1 year of Training in creating robust and innovative solutions. Proven expertise in backend & frontend development, API creation and database management. Seeking opportunities to contribute my skill & knowledge in dynamic work environment.

Technical Skills

Core java | Advance java | MySQL | PHP | HTML | CSS | Proficient in Microsoft Office.

Project Details

- Osianama knowledge base website.
- Backend: Joomla with PHP framework & MySQL database.
- Frontend: Angular Framework with Algolia for dynamic data rendering.
- Backend & Frontend communication via PHP API.
- Online Auctions Platform
- Infrastructure: CMS Joomla, MySQL Database & Frontend Angular.
- Additional: Google Firestore & Cloud tasks API for dynamic data & scheduled actions.
- Osianama world research center.
- Nodejs for CRUD operations & managing data using Cypher queries.

Responsibilities

- Created API's for seamless backend and frontend communication.
- Improved custom Joomla components to meet new requirements.
- Integrated Google Firestore database into PHP & Angular for real time data fetching.
- Implemented basic design enhancement for an improved aesthetic view of website.
- Utilized Google cloud tasks for executing necessary actions at specific time.
- Managed data management tools based on javascript & php.
- Integrated AWS services for rendering dynamic data on website.
- Implemented Google Maps API to attach live location to existing records.

Professional Training

From: JSpiders Hyderabad Punjagutta [August 2022 to July 2023]

Full-Stack Development

Core java

- Good in basics of JAVA and OOPs concept & feature of java.
- Good understanding on operators, conditional statements, recursion.
- Good in methods, method overloading, method overriding, Encapsulation, Polymorphism.
- Good knowledge in Has-A relationship, Is-A relationship of a Inheritance.
- Good knowledge in constructor, constructor overloading, this(), super().
- Good knowledge in Abstraction, Interface, String.
- Good knowledge in Exception Handling and Custom Exception.
- Array[Primitive & Non-Primitive], Sorting, Wrapper Classes, Collection Frame Work.
- Good knowledge in pattern programming.

Advance Java

- Good knowledge about JDBC, Servlet, Spring boot.

Database

- Good knowledge in writing SQL queries.
- Good knowledge In DDL, DQL, DML, DCL, TCL.
- Practiced extensively on Oracle 10g database.

Web Technologies

- Good knowledge in HTML, CSS.

Education

B-Tech [Computer Science & Engineering 2018-2022]

From- Bansal Institute Of Engineering & Technology Lucknow Affiliated to [Dr.A.P.J.Abdul Kalam Technical University Lucknow-UP].

Project

- Lung cancer detection using Digital Image Processing.
- Lung cancer was detected using various Algorithms with the help of MATLAB software.

Awards & Certificate

- Twowaits Technologies : Data Science & ML [1 months Internship].
- Ramkrishna IT Consulting: Certification course on Technical & Communication [2 months duration].
