PROFILE

A quick learner with an adaptable nature, I am Hardik—a budding Software Engineer. Innovative thinker, logical mind, and committed to continuous upskilling. Eager to contribute to dynamic software projects.

SKILLS

Programming Languages

C, C++, SQL (For RDBMS), Python

Technical Competencies

Data Structures, Algorithms, RDBMS (R. Data Base Mang. Sys), OOPS (Object Oriented Programming)
Operating System, Computer Network

Developer Tools

VS Code, MYSQL Workbench, GitHub, IntelliJ IDEA, Google Collab, Jupyter Notebook, Sublime Text

TRAINING

Data Structures in C++ | By Coding Ninjas (Online)

05/2022 – 09/2022

Completed training in C++ for efficient data structures, algorithmic problem-solving, and performance optimization of solutions.

PROJECTS

Snake Game in Python

Developed a *Console-based version* of the Snake game using Python.
Implement User input handling to control the movement of a snake.

Thinning algorithm (using python libraries)

Thinning algorithms iteratively remove the outer layer of pixels of an object.

ACADEMIC BACKGROUND

B.Tech Computer Science Engineering

Guru Ghasidas University 

Current CGPA - **8.71**

2020 – 2024

Bilaspur,

Chhattisgarh, India

Intermediate (CBSE)

St. Francis Mission School

Score - **93.8 %**

2019 – 2020

Lucknow, Uttar

Pradesh, India

Matriculation (CBSE)

St. Francis Mission School

Score - **91.4%**

2017 – 2018

Lucknow, Uttar

Pradesh, India

ACHIEVEMENTS

Code-Athon

AN INTER COLLEGE CODING COMPETITION

Got the **2nd Rank**

02/2023

100 Meters Sprint

Got the **2nd Position** among students from every engineering department

12/2022

Certificate of Excellence

For solving above 90% of problems during the DSA training

09/2022

NON-PROFESSIONAL ACTIVITIES

Calisthenics and Badminton
