ABOUT ME

Business Analytics undergraduate with hands-on experience in data analysis, business intelligence, and dashboard development. Completed internships with Kansai Nerolac Paints and Cognifyz Technologies, analyzing sales operations and business datasets to generate strategic and actionable insights. Skilled in Power BI, Excel, Python, and SPSS for data visualization and data-driven decision support in modern business environments. Passionate about transforming data into insights that improve business performance and overall operational efficiency.

SKILLS

- **Data Analysis:** Python, SQL, Excel, and SPSS for analyzing datasets, identifying patterns, and generating meaningful business insights.
- **Data Visualization:** Power BI and Tableau for creating interactive dashboards, charts, and visual reports for decision-making.
- **Business Analytics:** Data cleaning, dashboard development, KPI tracking, and sales analysis to support business performance evaluation.
- **Tools & Technologies:** MS Excel, PowerPoint, and Word for data reporting, presentation development, and documentation.
- **Professional Skills:** Communication, analytical thinking, problem-solving, and stakeholder management for effective collaboration.

PROJECTS

Uber Ride Data Analysis Dashboard (Research Project)

Tools: Business Insights, Data Analysis, Power BI, Excel

- Collected and analyzed a secondary ride-sharing dataset to study ride demand patterns, trip frequency, and customer usage trends.
- Developed an interactive Power BI dashboard with visualizations to monitor ride demand, peak travel hours, and high-traffic locations.

Investment Banking & Business Analytics Project

Tools: Business Insights, Data Analysis, Excel, Power BI

- Analyzed a structured investment dataset to evaluate market performance, revenue distribution, and financial growth trends.
- Developed an interactive Power BI dashboard with visualizations to monitor investment trends and financial performance metrics.

Sales Data Analysis Dashboard

Tools: Business Insights, Data Analysis, Excel, Power BI

- Analyzed a structured sales dataset to evaluate product performance, revenue distribution, and regional sales trends using analytics.
- Designed a dynamic Power BI dashboard with charts and indicators to track revenue performance and product contribution to sales.

WORK EXPERIENCE

1.Cognifyz Technologies – Business Analytics Intern (Part-Time Role)

April 2025 – May 2025

- Performed data analysis using Excel to evaluate investment areas and identify trends within structured business datasets.
- Developed interactive Power BI dashboards with charts and indicators to visualize business data and analytical insights.
- Conducted data cleaning, filtering, and validation to improve reporting accuracy and consistency in analysis.
- Generated business insights from analyzed data to support decision-making and strategic planning.

2.Kansai Nerolac Paints – Data Analyst Intern (Full Time Role)

June 2025 – July 2025

- Analyzed sales operations data to identify communication gaps between dealers and sales representatives across different sales regions.
- Collected field information and interacted with sales teams to understand operational challenges affecting coordination and performance.
- Performed structured data analysis to identify performance improvement areas and operational inefficiencies in the sales workflow.
- Proposed a conceptual AI-based solution to improve sales communication, productivity, and information sharing.
- Designed a prototype AI application workflow demonstrating how the solution could support daily sales activities.

3.Data Analytics Virtual Experience – Forage (Part-Time Role)

(Deloitte | Tata Motors | Commonwealth Bank)

- Completed case-based simulations focused on business analytics, data interpretation, and structured problem solving.
- Developed analytical reports and insights aligned with business objectives using simulated datasets.
- Strengthened analytical thinking and data interpretation skills across consulting, automotive, and banking scenarios.

EDUCATION

Bachelor of Business Administration – Business Analytics

CGPA: 8.5 (Till 4th Semester) | Expected 2026)

Class XII – CBSE

Vishwanath Academy, Lucknow – 78%

Class X – CBSE

Vishwanath Academy, Lucknow – 67%

CERTIFICATIONS

- Data Analytics Masterclass Certification covering data analysis concepts, visualization techniques, and practical business analytics applications.
- Business Analytics Certification focused on analytical thinking, data interpretation, and applying analytics for business decision-making.
- Deloitte Data Analytics Virtual Experience – Forage, completing case simulations involving data interpretation and analytical problem solving.
- Tata Motors Data Analytics Virtual Experience – Forage, performing business data analysis and generating insights from structured datasets.
- Commonwealth Bank Data Analytics Virtual Experience – Forage, developing analytical reports and understanding financial data trends.

ACHIEVEMENTS

- Winner – Battle of Bands, Lucknow University (2024), securing first place among multiple competing bands during the university cultural fest
- Winner – Battle of Bands, LPCPS College (2026), performing as a drummer and contributing to the team's musical coordination.
- Winner – Battle of Bands, IMRT College (2026), demonstrating strong teamwork, rhythm coordination, and live stage performance skills.
- Winner – Battle of Bands, BBD Institute (2026), achieving top position during the university cultural festival competition.
- 4th Place – Thomso Cultural Festival, IIT Roorkee (2023), competing among national-level bands during one of the largest college festivals.
- Winner – Ad-Mad Show Competition, BBD University, presenting a creative marketing concept and advertisement performance in Fest.

LEADERSHIP & VOLUNTEERING

- **Abhuday Gullak Pathshala (Volunteer Teacher)** - providing educational support and academic guidance to underprivileged students in slum.
- **TEC Free Fire India Cup (Event Volunteer)** - assisting in esports tournament operations, game observation, and coordination with the event management team.
