HONORS & AWARDS

1st Position — Cyber Security Poster Presentation

2025

Recognized for excellence in distilling complex security vulnerabilities into an impactful visual format.
Demonstrated deep understanding of web security principles and data protection.

TECHNICAL PROFICIENCY

HTML5 / CSS3 / Tailwind	95%	JavaScript (ES6+)	85%
Bootstrap / UI Design	90%	Web Security Awareness	80%
ReactJS	85%		

KEY PROJECTS

PharmaGuard — Pharmacy Management

2026

- Built a full-stack inventory tool with **Tailwind CSS**; prioritized secure data handling.
- Successfully deployed on **Netlify** and **Render** for real-time stock management.

News-Room — Live News Platform

2026

- Developed a dynamic frontend interface utilizing **ReactJS** to fetch and render articles in real-time.
- Integrated the **NewsAPI** to handle live data ingestion and category-based filtering functionality.

Eduflexify — Frontend Educational Platform

2026

- Designed and developed a responsive, accessible frontend interface tailored for online educational services.
- Deployed and currently live for users at [eduflexify.tech](#).

Glass Task Manager — Browser Extension

2025 – 2026

- Developed a custom productivity tool using **Vanilla JS** and modern styling.
- Published and currently live as **glass-task-manager** on **Firefox** and **Edge** extension stores.

EXPERIENCE & HACKATHONS

DevQBX Hackathon

Jun 2026

- Engineered **instantFix**, an on-demand service platform connecting users with local mechanics, plumbers, and electricians for rapid assistance.

RIFT '26 Offline Hackathon (Team ShadowCoders)

Feb 2026

- Used **Gemini AI** to accelerate frontend prototyping, delivering a full site within 24 hours.

EDUCATION

B.Tech in Computer Science & Engineering

2023 — 2027

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow
