SUMMARY

Computer Science Engineering student focused on building AI-powered products, scalable web applications, and sustainability-driven tech solutions. Hands-on experience in Python, MERN Stack, FastAPI, and Machine Learning with practical exposure through hackathons and real-world product development. Passionate about solving practical problems through AI and software.

SKILLS

- MERN Stack with React.js and Next.js
- Machine Learning, EDA, Feature Engineering
- Data Analytics & Visualization
- AI System Design (Roadmap: LLMs, RAG, Agents)
- Python, FastAPI, Rest API, Node.js, JavaScript, C++
- MongoDB, MySQL, PostgreSQL, Databases & Query Optimization

PROJECTS

SkillSync-AI – Resume Analyzer & Interview Preparation Platform

Built an AI-powered system to analyze resumes, detect skill gaps, and provide actionable suggestions for interview preparation. Developed using **Python, FastAPI, React.js, and Node.js** with focus on automation and user experience.

Waste-to-Worth – Smart Sustainability Platform

Developed a sustainability-focused solution for transforming waste into reusable and valuable resources through smarter waste management strategies and eco-friendly implementation.

LinkedIn: linkedin.com/in/adityaraj-dwivedi-159906324

Languages: English, Hindi

Interests: AI/ML, Full Stack Development, Startups, Blockchain & Web3

ACHIEVEMENTS

1st Position — InnovativeX (NPGC College, Lucknow) **for Waste-to-Worth project.**

16th Rank — DevSummit 2026 (Jagannath University, Jaipur) **among 55 teams in a 24-hour hackathon.**

HACKATHONS & EXPERIENCE

DevSummit 2026 — Participated in a national-level hackathon and showcased live product demos under time constraints.

InnovativeX — Presented innovation-driven sustainability project and secured first position

EDUCATION

Bachelor of Technology in Computer Science Engineering

Maharishi University of Information Technology (2023 – 2027)

CGPA: **7.89**
