

Ahatsham Ansari

Software Engineer | Full-Stack Developer

ahatshamansari333@gmail.com | +91 9005073511 | Gharuan, Punjab, India
| linkedin.com/in/ahatsham-ansari-285174249

Objective

A dedicated and innovative software developer with a strong foundation in team leadership, creative problem-solving, and design. Seeking an opportunity to leverage my skills and experience to drive impactful results, foster collaborative growth, and contribute significantly to the company.

Skills

Java, Python, JavaScript, HTML5, CSS3, React.js, Next.js, Node.js, FastAPI, PostgreSQL, Neon DB

Education

Bachelors in Computer Science Engineering CGPA - 7.1	2022 - 2026
Chandigarh University, Gharuan, Mohali, Punjab	
Matriculation Percent - 71	2019
Maharana Pratap Inter College, Maharaiganj	
Intermediate Percent - 76.6	2018
Maharana Pratap Inter College, Maharaiganj	

Certifications and Training

Foundation of cloud Iot edge ML (Coursera Platform), The Sustainable Development Goals – A global, transdisciplinary vision for the future (Coursera Platform), Interactivity with JavaScript and jQuery an online non-credit course authorized by University of California, Davis and offered through (Coursera Platform)In-House summer training (React-js). (CHANDIGARH UNIVERSITY)

Achievements

- Patent 1** : Smart Federated IoT Gridfor Real-Time Greenhouse GasTracking and Predictive Environmental Control Status: Granted [2025] | A novel IoT-based federated grid system enabling real-time GHG monitoring with predictive environmental control. Key innovations:
- Patent 2** : AI-Powered Universal Animal–Human Communication Device Status: Granted [2026] | A groundbreaking device leveraging artificial intelligence to interpret and translate animal communication patterns into human-understandable formats

Hobbies

Cricket & Volleyball, Martial Arts, Singing, Reading Books

Project Experience

Driver drowsiness detection

Built a real-time system using OpenCV and facial landmark detection to identify driver fatigue and trigger alerts.

BrainHive social media website

Developed a responsive social platform with user authentication, real-time features, and modern UI components using Next.js and React.

DreamHive platform

Built a construction-focused platform enabling users to find contractors, suppliers, and related stores with secure data handling and efficient querying using Prisma and NeonDB.

AhsanGive Charity Platform

Developed a donation platform where multiple mosques can register, and users can make secure contributions with efficient data management through Prisma and NeonDB.

Quriva

Quriva.in is an interactive Islamic Learning platform offering Quran quizzes, daily Duas, and structured educational content and also users can search custom Prayer time.

Languages

Hindi — Fluent, English — Intermediate
