Career Objective

Motivated and detail-oriented BCA graduate with foundational knowledge of Python, MySQL, Git, and GitHub. Seeking an entry-level or internship opportunity to apply my technical skills, gain practical experience, and contribute to software development projects while continuously learning and growing in the IT industry.

Technical Skills

- **Programming:** Python (Core)
- **Version Control:** Git & Github
- **Databases:** MySQL (CRUD)
- **Tools:** VS Code

Projects

1. Student Management System (Python)

- Developed a simple console-based application using Python. Added and viewed student records.
- Used lists, loops, conditional statements, and user input handling.

2. Student Database Management System (MySQL)

- Designed and implemented a student database using MySQL.
- Performed CRUD operations using SQL queries.
- Practiced database management concepts including data insertion, retrieval, updating, and deletion.

Education

Bachelor of Computer Applications (BCA)

[MLK PG COLLEGE, BALRAMPUR]

(2023 – 2026)

Career Interests

- Python Developer
- Backend Developer
- API Development
- Software Development
