

ARYAN SAHU

Full Stack Developer | aryansahuosvn2006@gmail.com | +91 7081532300 | Kanpur, India

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable and high-performance web applications using NestJS, Node.js, React, and Next.js. Experienced in developing end-to-end eCommerce systems, from backend architecture and API development to responsive frontend interfaces. Strong in authentication, performance optimization, and clean, maintainable code practices.

SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap
- **Backend:** Node.js, NestJS, Express.js
- **Databases:** MongoDB, MySQL
- **ORM & Architecture:** TypeORM, MVC Pattern
- **API Development:** RESTful APIs, Swagger, JSON
- **Authentication & Security:** JWT-based Authentication, Role-Based Access Control (RBAC)
- **Integrations:** Razorpay (Payments), Socket.IO (Real-time), Nodemailer (Email Services)
- **Tools & Version Control:** Git, GitHub, Postman

WORK EXPERIENCE

1. BitNovaTech (Kanpur) | May 2024 – Present

1. Project: Zyluxx (Ecommerce)

Link: <https://zyluxx.com/>

Role: Full Stack Developer (NestJS & Next.js)

Technology: NestJS, Next.js, React.js, TypeORM, MySQL, Razorpay, JWT, REST API, Zod, Git.

- Designed and developed scalable backend architecture using NestJS, TypeORM, and MySQL.
- Built 25+ RESTful APIs for authentication, products, cart, orders, and user management.
- Implemented JWT-based authentication with role-based access control (RBAC).
- Integrated Google OAuth 2.0 for social login.
- Developed complete eCommerce flow: cart, checkout, order tracking, and payment integration.
- Integrated Razorpay payment gateway for secure transactions.
- Built product variant system supporting multiple attributes and images.
- Implemented advanced filtering, pagination, and search functionality.
- Improved API performance by ~30% using caching strategies.
- Designed logging system using interceptors for request/response tracking and debugging.
- Implemented global exception handling for consistent API responses.
- Ensured data consistency using database transactions during checkout.
- Optimized database queries using joins and query builders.
- Implemented multi-language (locale-based) product support.
- Used DTOs, validation pipes, and Zod for strong input validation.
- Integrated newly developed APIs into the frontend and ensured smooth data flow.
- Debugged and resolved UI/functional issues across multiple pages.
- Developed and enhanced several pages and components for better usability.
- Implemented "Buy Now" functionality for faster checkout experience.
- Worked on feature updates and improvements across different modules.
- Collaborated with senior developers and followed best practices in development.
- Ensured responsive design and optimized performance across devices.

2. Project: Real-Time Chat & Social Media Platform

Role: Full Stack Developer

Technology: NodeJS, Next.js, Socket.IO, TypeScript, JWT, MongoDB, Git

- Developed a real-time chat and social networking platform using Nodejs and Next.js.
- Implemented JWT-based authentication and authorization for secure user access.
- Built one-to-one real-time messaging using Socket.IO with instant message delivery.
- Developed a post management system where users can create, view, and manage their posts.
- Created an all posts feed to display content shared by all users.
- Implemented a My Posts section allowing users to view and manage their own posts.
- Added post engagement features including like/unlike functionality.
- Designed RESTful APIs for user management, posts, likes, and chat operations.
- Implemented real-time online/offline user status tracking.
- Optimized database queries and API performance for faster data retrieval.
- Applied modular architecture, DTO validation, and clean coding practices using NestJS.
- Used Git for version control and collaborative development.

SOCIAL LINKS

- **GitHub** : <https://github.com/Aryan-sahu1>
- **GitLab** : <https://gitlab.com/Aryan-sahu>
- **LinkedIn**: <https://www.linkedin.com/in/aryan-sahu-046b8a239/>

EDUCATION

- **2025-2027**: Masters of Computer Applications (Computer Science) from Mangalayatan University (pursuing).
- **2022-2025**: Bachelor of Computer Applications from Dr. Virendra Swaroop Institute of Computer Studies affiliated to CSJM University with 79.42% .
- **2022**: Intermediate UP Board with 83.60% (99 Mark secured in Mathematics).
- **2020**: Highschool from UP Board with 85.11%

KEY STRENGTHS

- Strong backend architecture & API design
- Real-world production experience (E-commerce)
- Clean code & scalable development practices
- Performance optimization & debugging
