- Python (Pandas, Data Automation, Data Transformation)
- Advanced Excel & VBA Automation
- Data Cleaning, Validation & Processing
- Workflow & Process Optimization

Analytics Skills

- Data Analysis & Insight Generation
- Reporting & Dashboarding
- Root Cause Analysis
- Financial Reporting

Professional Skills

- Project Management
- Cross-functional Coordination
- Process Improvement

Professional Experience

Business Analyst | VBA Developer

Nielseniq (India) Pvt Ltd.

May 2025 - Present

Key Contributions

- Developed Python & VBA automation solutions, reducing manual processing time by 40–60%
- Processed and analyzed datasets of 10K–20K+ records, improving data accuracy and reporting quality.
- Built dynamic Excel-based reporting tools, improving turnaround time by 30%.
- Automated multi-source data integration workflows, reducing errors by 25–35%.
- Managed Financial FTE Tracking, Budgeting & Forecasting processes, ensuring accurate reporting to finance stakeholders.
- Delivered high-quality financial reports supporting planning and decision-making.
- Collaborated with cross-functional teams to ensure timely and accurate data delivery

Sr. Data Processing Specialist

Nielseniq (India) Pvt Ltd.

May 2023 - May 2025

Senior Data Processing Specialist with experience in managing high-value global clients and delivering accurate, on-time data solutions. Proven expertise in client onboarding, quality assurance automation, and ensuring 100% data accuracy for business-critical reporting.

Key Contributions

- Managed and delivered data solutions for high-priority global clients including L'Oréal, SCJ, Mondelez, Reckitt, and Unilever, ensuring consistent quality and client satisfaction.
- Achieved 100% on-time delivery with high data accuracy across all assigned client projects.
- Successfully onboarded new Canada-based clients such as Danone and Barilla, along with L'Oréal category expansion, delivering 100% accurate and validated datasets.
- Developed Excel VBA macros for internal quality checks, improving data validation efficiency and ensuring accuracy standards.
- Strengthened data quality processes, reducing errors and enhancing reliability of client deliverables
- Collaborated with internal teams to streamline workflows and improve delivery timelines

Data Processing Specialist

Nielseniq (India) Pvt Ltd

Nov 2019 - April 2023

Data Processing Specialist with strong experience in product characteristic coding and data quality validation for global FMCG clients. Developed expertise in ensuring first-time-right (FTR) delivery and supporting data processing through Excel-based automation tools.

Key Contributions

- Performed product characteristic coding for leading global clients including Lindt Chocolate, Mars Wrigley, Mondelez, Coty, and SCJ, ensuring accurate product classification.
- Maintained high First-Time-Right (FTR) performance by conducting daily quality checks and validation processes • Utilized and enhanced Excel-based tools such as Fuzzy Lookup and file comparison macros to streamline data matching and improve efficiency.
- Conducted data comparison and validation across multiple datasets, ensuring consistency and accuracy.
- Supported continuous improvement in data processing workflows, reducing manual effort and improving delivery quality.

Projects

FTE Tracking & Financial Reporting Tool

Oct 2025 - March 2026

Tools: Excel, VBA, Data Analysis

- Designed and developed a centralized FTE (Full-Time Equivalent) tracking tool used by the team for workforce planning and monitoring
- Enhanced visibility of resource allocation and improved overall tracking efficiency across projects

Client Delivery on Time Python Tool

Tools: Python Pandas

July 2023 - August 2023

- Developed a Python-based tool to manage client delivery timelines effectively.
- Designed to identify non-deliverable databases and ensure timely delivery to meet project deadline.
- Improved efficiency in database management, enabling timely delivery and enhancing client satisfaction for the CI Team.

Quality Tool for Code Verification in IDES using VBA

Jan 2021 - Feb 2021

Tools : Excel ,VBA, Data Analysis

Developed a robust quality tool using VBA to automate the verification of 8-letter codes against IDES databases. The tool is currently utilized by the GTC team to ensure accuracy and consistency in code management processes.

Education

Gujarat Technological University

June 2016 - June 2018

Masters of Computer Applications

Sardar Patel University

June 2013 - June 2016

Bachelor in Computer Applications

Certifications

- Discover Certification
- Moonshot Operations Basics
- OGRDS Basics & Advance
- Client Instructions (CI)
- Input Validation (IV) Basics
- Linkedin Python vs. R for Data Science
- Linkedin Python for Data Visualization
- Linkedin Machine Learning with Python Foundations
- Linkedin Critical Thinking for More Effective Communication
