PROFESSIONAL SUMMARY

Results-oriented .NET Developer with 2.6 years of experience in designing, developing, deploying, and maintaining web applications using ASP.NET MVC, .NET Core, C#, SQL Server, JavaScript, HTML, and CSS. Skilled in RESTful APIs, database optimization, and third-party API integration to improve system functionality and performance. Experienced in end-to-end application development, deployment, and production support with a focus on clean, scalable, and user-friendly solutions.

CORE TECHNICAL SKILLS

- Languages & Frameworks: C#, ASP.NET Core MVC, ASP.NET Core Web API, LINQ, Entity Framework Core
- Frontend: HTML5, JavaScript, jQuery, CSS3, Bootstrap
- Database: SQL Server, Stored Procedures, Triggers, Views
- Tools & Platforms: Visual Studio, Postman
- Other: REST API Development, Third-Party API Integration, Agile/Scrum Methodology, Unit Testing, Application Deployment, Debugging & Performance Optimization

PROFESSIONAL EXPERIENCE

- Software Engineer | Chetu India Pvt. Ltd., Noida

April 2024 – Present

- Key Responsibilities:
 1. Developed and deployed scalable ASP.NET Core MVC and Web API applications for health care clients.
 2. Designed APIs to enhance interoperability and system integration efficiency.
 3. Optimized SQL Server queries reducing average execution time by 40%.
 4. Successfully integrated various third-party APIs to enhance functionality and optimize system performance.
 5. Collaborated with cross-functional teams under Agile methodology to meet business objectives.

- Key Projects:
6. Developed and maintained a Health Care System using ASP.NET Core MVC, .NET Core, C#, and SQL Server.
 7. **Surescripts Integration:** Successfully integrated **SureScripts API** to enable seamless Electronic Prescribing (eRx) and clinical data exchange.
 8. **Medication History:** Implemented modules to fetch real-time patient Medication History via SureScripts, improving clinical decision-making.
 9. Managed backend development, database operations, and business logic implementation for smooth system functionality.
 10. Designed and optimized SQL Server objects including Stored Procedures, Views, and Triggers for efficient data processing.
 11. **Narcotic Risk Management:** Developed a workflow that automatically queries PDMP databases to check patient history for opioids and controlled substances before finalizing prescriptions.
 12. **Data Interoperability:** Managed complex data mapping between SQL Server and external healthcare APIs using XML/JSON parsing and RESTful services.
 13. Developed and consumed RESTful APIs for seamless frontend and backend communication.
 14. Deployed applications on live servers and handled production support by troubleshooting and resolving critical issues.
 15. Worked on bug fixing, performance optimization, and feature enhancements based on business requirements.
 16. Currently developing a Hotel Booking Management System, focusing on automating room reservations and guest check-in/out workflows using .NET Core and SQL Server.

EDUCATION

- BCA – Computer Science | Jaipur National University (2021)
- Intermediate (10+2) | U.P Board (2016)

DECLARATION

I hereby declare that the above information is true to the best of my knowledge and belief.
