Career Objective

Computer Science graduate with strong skills in **Java** and **Full-Stack Development**. Experienced in building responsive web applications, RESTful APIs, authentication systems, and database-driven solutions using **React.js**, **Node.js**, **Express.js**, and **MongoDB**. Possess a solid foundation in **Data Structures & Algorithms**, **Object-Oriented Programming**, **DBMS**, and **Operating Systems**. Quick learner with strong problem-solving abilities, seeking a **Software Engineer** role to develop scalable applications and contribute to high-impact technology solutions.

Education

A.P.J Abdul Kalam Technical University
B.Tech in Computer Science and Engineering
(CGPA) – 7.4

May 2022 – May 2026

MDM Public Inter College
Intermediate (PCM) – 79.9%

Jul 2019 – Mar 2021

Skills

Languages: Java, C, JavaScript

Technologies: HTML, CSS, React.js, Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Tools & Platforms: Git, VS Code

Soft Skill: Fast Lerner, Problem-Solving, Team Collaboration, Communication, Time Management

Projects

TravelHaven – Full-Stack Web Application

- Developed a full-stack application using Node.js, Express.js, MongoDB, CSS and EJS, enabling dynamic property listing management.
- Developed RESTful APIs and CRUD operations for listings, reviews, and bookings.
- Developed a full-stack accommodation booking platform where property owners can list hotels, rooms, houses, and rental properties.
- Enabled users to browse, search, view property details, and book accommodations based on their requirements.
- Built secure authentication and session management improving application security and user data protection.
- Managed property listings, reviews, and booking functionalities..

Zerodha Clone (Trading Platform UI)

- Developed a responsive trading platform interface inspired by Zerodha.
- Implemented multi-page navigation using React Router
- Developed reusable components such as Navbar, Footer, Product sections, and Support portal
- Designed layouts using Bootstrap Grid system for responsiveness
- Created UI features like pricing cards, product showcase, and search functionality

Certifications/Training

Frontend Development – Digital Navik

2023

Java Web Development Program with AI – HCLTech

2024

DSA with JAVA – Sipher Web Academy

2025

Leadership& Activities - Co-curricular Activity

Event Coordinator, BIET Lucknow

2023 – 2025

- Coordinated **technical events with 100+ participants**, managing logistics and execution.
- Led teams to deliver events efficiently, demonstrating **leadership and team collaboration**.
