

HARSHITA SHARMA

Kanpur Nagar | +91 8188035620 | contactharshii0909@gmail.com | linkedin.com/in/harshita-sharma-905542253

SUMMARY

Detail-oriented Computer Science Engineering undergraduate with hands-on experience in Data Analytics, Business Intelligence, and Python-based automation. Proficient in SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Power BI, and Excel. Demonstrated ability to clean and analyze large datasets, build interactive dashboards, and deliver data-driven insights that support strategic business decisions. Strong communicator with proven teamwork and time-management skills, seeking a data analyst or BI analyst role in a growth-oriented organization.

SKILLS

Technical Skills: Python | SQL | Power BI | Microsoft Excel | Pandas | NumPy | Matplotlib | Seaborn | Data Cleaning | Data Visualization | Dashboard Development | KPI Reporting | EDA | ETL | Microsoft Office | Speech Recognition

Soft Skills: Analytical Thinking | Problem Solving | Time Management | Teamwork | Collaboration | Presentation & Communication

Languages: English | Hindi

EDUCATION

Axis Institute of Technology and Management

Bachelor of Technology – Computer Science Engineering | CGPA: 8.12 / 10 | Sept 2022 – May 2026

Kendriya Vidyalaya Cantt Kanpur

Intermediate (Class XII) – April 2021 – March 2022 | High School (Class X) – April 2019 – March 2020

INTERNSHIPS

Accenture North America – Data Analytics Intern

India | Nov 2024 – Dec 2024

- Performed end-to-end data wrangling and cleaning on datasets of 5,000+ records using Excel and SQL, ensuring data accuracy and consistency for downstream analysis.
- Designed and deployed interactive Power BI dashboards to monitor KPIs and business performance trends, enabling stakeholders to make faster, evidence-based decisions.
- Improved reporting clarity and insight visibility by ~30%, reducing time-to-insight for the analytics team.
- Translated complex data findings into actionable, business-aligned recommendations and presented them to cross-functional teams.

Palo Alto Networks – Cybersecurity Intern

India | Jul 2024

- Assessed real-world threat scenarios and applied structured risk mitigation frameworks to evaluate system vulnerabilities.
- Strengthened analytical skills in identifying attack vectors, applying preventive controls, and documenting security findings.

PROJECTS

End-to-End E-Commerce Sales Analysis

Tech Stack: Python, Pandas, NumPy, Matplotlib, Seaborn, Excel | Oct 2025

- Conducted exploratory data analysis (EDA) on a large-scale e-commerce dataset using Pandas and NumPy, uncovering key sales trends and regional performance patterns.
- Performed data cleaning and transformation (handling nulls, duplicates, type casting), improving dataset usability and analysis reliability.
- Built interactive visualizations using Matplotlib and Seaborn to analyze product performance, regional sales distribution, and customer behavior insights.

Jarvis AI Desktop Voice Assistant

Tech Stack: Python, SpeechRecognition, pyttsx3, Webbrowser, OS, Datetime | Nov 2024

GitHub: <https://github.com/contactharshii0909-oss/h-rshii.github.io>

- Developed a Python-based voice assistant capable of handling 15+ voice commands with ~90% speech recognition accuracy using the SpeechRecognition and pyttsx3 libraries.
- Automated repetitive workflow tasks, reducing manual effort by 25% through integration of OS and Datetime modules for file management and scheduling.

CERTIFICATIONS

- Data Analytics & Visualization Job Simulation – Accenture
- Data Analytics Job Simulation – Deloitte
- GenAI Powered Data Analytics Job Simulation – Tata (TCS iON)
- Python (Basic) Certification – HackerRank
