Jun 2020

PROJECTS

Techtonic Labs [🔗](#)

Developed and deployed startup website using HTML tailwind CSS and JavaScript with gsap animations for smooth transition integrated web three forms API for the contact page and hosted the project on github for seamless deployment and version control

Techtonic Games [🔗](#)

Developed a website for hosting online gaming tournament for bgmi free fire and other popular games built using HTML tailwind CSS JavaScript and GSAP animation for an engaging user experience integrated web3 forms API for similar user interruption and deployed using vercel and get up for efficient hosting and version control.

Library Management System(Python)

Developed a Python-based application to manage library operations such as book issue/return, member records, and inventory tracking. The system features a user-friendly interface and automates routine tasks, improving efficiency and reducing manual errors.

SKILLS

- **Programming Language:** Python, c Java
- **Web Development:** HTML, CSS, Javascript, React js
- **Database:** MySQL
- **Cyber Security:** Network Security, Ethical Hacking Fundamental, Kali Linux
- **Version Control:** Git, GitHub

CERTIFICATE

Google Cyber Security Professional Certificate (Coursera)

Basic Of Python (Infosys Springboard)

Red Hat Linux Fundamentals (RH104)

Certification Of Completing One Month Virtual Internship (Prodigy Info Tech)

Python Remote One Month Cybersecurity Internship

STRENGTH

- **Quick Learner** – Easily adapts to new technologies.
- **Problem Solver** – Strong analytical and troubleshooting skills.
- **Team Player** – Works well in collaborative environments.
