Lucknow, Uttar Pradesh | +91 9118834931 | lavanyasahni203@gmail.com | LinkedIn | GitHub

CAREER OBJECTIVE

Results-driven Full Stack Developer with hands-on experience in MERN Stack and Django, building scalable web applications and AI-powered solutions. Skilled in REST APIs, Java, debugging, and modern web technologies, with experience developing projects including AI tools, analytics platforms, and e-commerce systems. Seeking an opportunity to contribute technical skills, problem-solving ability, and a strong learning mindset in a growth-oriented organization.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript (ES6+), HTML, CSS
Frontend	React.js, Next.js, Responsive UI Development
Backend	Node.js, Express.js, Django, REST APIs
Databases	MongoDB, MySQL
Testing	Jest (Basics), Mocha (Basics), Browser DevTools, API Testing
AI / ML	Gemini API Integration, AI-Powered Automation, Data Visualization (Recharts, Chart.js)
Tools	Git, GitHub, VS Code, GitHub Copilot, Slack/Discord
Concepts	RESTful Architecture, MVC, Clean Code, SSR, SEO, State Management

PROJECTS

MeetScribe – AI-Powered Chrome Extension for Meeting Notes

GitHub

Technologies: React.js, Node.js, Gemini API, JavaScript, MongoDB

- Integrated Gemini API for AI-powered summarization and task extraction from meeting discussions
- Built Chrome Extension APIs for real-time capture, storage, and in-browser interaction
- Automated note-taking pipeline — significantly reducing manual effort for remote teams
- Designed a lightweight, user-centric UI for seamless in-browser productivity

Gitlytics – GitHub Repository Analytics & Ranking Platform

Live | GitHub

Technologies: MERN Stack (MongoDB, Express, React, Node), GitHub REST API, Recharts

- Built a MERN platform analyzing and ranking 1000+ GitHub repositories using real-time API data
- Ranked repos based on stars, forks, and activity metrics with interactive dashboards
- Developed data visualizations with Recharts — relevant to Data Science / AI & ML track
- Optimized frontend performance and improved data rendering efficiency

Meraki – Coffee Beans E-Commerce Website

Technologies: HTML, CSS, JavaScript, Bootstrap, Python, Django, DRF

- Built a full-stack e-commerce platform: product listings, cart, authentication, and admin panel
- Developed REST APIs with Django REST Framework for product management and user interactions
- Wrote clean, modular Python code following MVC principles; tested and debugged before deployment

OPEN SOURCE EXPERIENCE

Open Source Contributor — GirlScript Summer of Code (GSSoC)

- Fixed bugs and improved UI components across multiple open-source projects
- Collaborated asynchronously with mentors via GitHub using ticket-based workflows
- Responded to code reviews and iterated based on mentor feedback efficiently

EDUCATION

Bachelor of Computer Applications (BCA)

University of Lucknow

2023 – Expected 2026

Senior Secondary – ISC Board (Commerce + Computer Science)

2021 – 2023

CERTIFICATIONS

- Full Stack Web Development – MERN Stack
- Full Stack Web Development – Django
