TECHNICAL SKILLS

Programming Languages: C++, JavaScript (ES6+)

Frontend: React.js, Redux Toolkit, HTML, CSS, Tailwind CSS

Web & APIs: RESTful APIs, YouTube Data API, OpenAI API

Database: MySQL (CRUD operations, Joins)

Tools: Git, GitHub, Vercel, Netlify

Core CS: Data Structures & Algorithms, Object-Oriented Programming

Learning (in progress): Manual Testing & Test Case Design, Microsoft Excel (formulas, VLOOKUP, pivot tables)

PROJECTS

Netflix GPT — AI-Powered Movie Recommendation App | [Live Demo](#)

React.js · Redux Toolkit · OpenAI API · Supabase · Tailwind CSS · Git

- Delivered a deployed, end-to-end movie recommendation app by integrating the OpenAI API for AI-generated suggestions and Supabase for user authentication
- Eliminated prop-drilling and simplified state updates across 5+ components by structuring global state with Redux Toolkit
- Shipped a fully styled, component-based UI from scratch using Tailwind CSS, version-controlled with Git/GitHub throughout development
- Manually tested authentication flow, API integration, and core UI interactions before deployment

YouTube Clone — Video Streaming Platform | [Live Demo](#)

React.js · Redux Toolkit · YouTube Data API · Tailwind CSS · Git

- Built a live video platform by integrating the YouTube Data API, rendering real-time video and search results directly from a third-party data source
- Implemented live search suggestions and a nested comment system to replicate core platform interactions
- Centralized app-wide state (videos, comments, search) using Redux Toolkit, tracked through Git
- Manually verified search, comment, and state-sync functionality across components before deployment

Focus On Today — Daily Goal Tracker App | [Live Demo](#)

HTML · CSS · JavaScript · Git

- Built and deployed a complete CRUD task-management app — add, complete, and delete — using vanilla JavaScript DOM manipulation, with no framework dependency
- Manually tested all CRUD operations for edge cases (empty input, duplicate tasks) prior to release

ACHIEVEMENTS & CERTIFICATIONS

- Solved 150+ problems on LeetCode; earned 50-Day and 100-Day Coding Badges
- Java Training Certification — SKDEFT Employability Enhancement Programme (supported by Infosys Foundation)

EDUCATION

Dr. Virendra Swarup Institute of Computer Studies, Kanpur

Bachelor of Computer Applications (BCA) — CGPA: 7.4
