PROFESSIONAL SUMMARY

BCA graduate with a strong foundation in data analysis, Python programming, SQL, databases, data visualization, and business reporting. Skilled in Excel, Power BI, Tableau, Python libraries for data analysis, SQL querying, data cleaning, exploratory data analysis, statistical analysis, dashboard development, and presenting actionable insights. Strong problem-solving and communication skills with a focus on turning raw data into clear, useful information for business decisions.

DATA ANALYTICS SKILLS

Data Analysis	Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Data Validation, Data Interpretation
Excel	Advanced Excel, Pivot Tables, Pivot Charts, XLOOKUP/VLOOKUP, INDEX-MATCH, IF/IFS, SUMIFS/COUNTIFS, Conditional Formatting, Charts & Reporting
BI & Visualization	Power BI, DAX, Power Query, Dashboard Development, KPI Reporting, Tableau, Interactive Visualizations
Python	Python, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook
SQL & Databases	SQL, MySQL, MongoDB, Joins, Subqueries, Aggregations, GROUP BY, HAVING, CTEs, Window Functions, Data Retrieval
Statistics	Descriptive Statistics, Mean/Median/Mode, Variance, Standard Deviation, Correlation, Basic Probability, Trend Analysis
Reporting	Data Visualization, Business Reports, KPI Analysis, Insight Generation, Presentation of Findings
Tools	Git, GitHub, VS Code, Jupyter Notebook, Microsoft Excel, Power BI, Tableau

PROJECT & ANALYTICAL EXPERIENCE

Data Analysis & Database-Driven Projects

- Cleaned, organized, and analyzed structured datasets using Python and spreadsheet-based analysis techniques to identify trends and useful patterns.
- Performed exploratory data analysis using Pandas and NumPy and created visualizations with Matplotlib and Seaborn to communicate findings.
- Wrote SQL queries for data extraction, filtering, joins, aggregation, subqueries, and analytical reporting using MySQL.
- Built interactive dashboards and KPI reports using Power BI/Tableau concepts to present business-focused insights clearly.
- Used Excel functions, Pivot Tables, charts, and conditional formatting to summarize data and support reporting.
- Worked with MySQL and MongoDB for data storage, validation, retrieval, and database-driven application workflows.
- Applied basic statistical techniques to understand distributions, relationships, trends, and data quality.
- Used Git/GitHub for version control and communicated technical findings and project progress effectively.

EDUCATION

Bachelor of Computer Applications (BCA) — Integral University, Lucknow, India | 2023–2026 | Completed

Class XII (Senior Secondary) — ICSE Board | Unnao, India

Class X (Secondary) — ICSE Board | Unnao, India

CERTIFICATIONS

- Applied Data Science with Python
- Web Development Fundamentals

CORE STRENGTHS

Analytical Thinking • Problem Solving • Attention to Detail • Data-Driven Decision Making • Communication • Presentation Skills • Team Collaboration • Time Management

LANGUAGES

English — Professional Working Proficiency | Hindi — Native
