TECHNICAL SKILLS

Languages: PHP, Python, JavaScript | **Frameworks:** Laravel, Livewire, CodeIgniter | **Database:** MySQL | **Tools:** Git, GitHub, GitLab, VS Code | **AI Tools:** ChatGPT, GitHub Copilot, Gemini

PROFESSIONAL EXPERIENCE

Software Engineer | Singsys Pte Ltd. | Apr 2024 – Present

Developed and maintained Laravel web applications and REST APIs, built authentication, third-party integrations, and admin panels, optimized backend performance and MySQL queries, and collaborated with cross-functional teams to deliver scalable solutions.

Software Engineer Trainee | Kraftors Web Solutions | Nov 2023 – Apr 2024

Developed backend modules using CodeIgniter, fixed application bugs, and optimized SQL queries to improve application performance.

PHP Laravel Intern | Eighteen Pixels | Dec 2022 – Feb 2023

Developed Laravel CRUD modules and assisted in testing, debugging, and maintaining existing applications.

PROJECTS

TravelSpark (*Laravel, React.js, MySQL, REST APIs*)

Developed a React.js website, Laravel Admin Panel, REST APIs, a tour booking system with ticket management, and integrated the FomoPay payment gateway.

BLHP (*Laravel, MySQL, Firebase*)

Developed an Admin Panel and Mobile APIs, implemented property listing with advanced search using budget and location filters, and integrated Firebase Cloud Messaging (FCM).

ACHIEVEMENTS

Recognized for proactive contributions across multiple projects and appreciated for consistently delivering high-quality work within deadlines.

EDUCATION

Master of Computer Applications (MCA) – Integral University | 2022 | 82.2%

Bachelor of Computer Applications (BCA) – KMC Language University | 2020 | 65.33%
