

MOHD SUHAIL

- **Software Engineer**
- suhailahamad7860@gmail.com | +91 7505569004 | Roorkee, Uttarakhand 

SUMMARY

- Entry-level Software Engineer with hands-on experience in MERN stack development, REST API development, and AI-powered applications. Skilled in building scalable web applications, implementing authentication systems, and working with MongoDB and MySQL databases. Strong problem-solving skills with a passion for developing efficient software solutions and continuously learning new technologies.

SKILLS

- **Programming Languages:** C, C++, Python
- **Frontend:** React.js, HTML5, CSS3, JavaScript
- **Backend:** Node.js, Express.js, Fast API, REST APIs
- **Database:** MongoDB, MySQL
- **AI/ML:** Machine Learning, Pandas, NumPy, Scikit-Learn
- **Tools:** Git, GitHub, Postman, VS Code, PyCharm

PROJECTS

◆ Intelli-Migrate (AI-Driven Data Migration & ETL Automation Platform)

- Developed an AI-powered platform to migrate unstructured data (JSON, XML, CSV) into relational databases.
- Implemented a multi-agent ETL pipeline for schema mapping, anomaly detection, data normalization, and SQL generation.
- Built an anomaly detection module using Isolation Forest to identify outliers and improve data quality.
- Automated 3NF normalization and schema transformation for optimized database design.
- Generated deployment-ready SQL scripts for MySQL, PostgreSQL, and SQLite databases.
- Improved migration efficiency by reducing manual ETL and database conversion efforts.
- Achieved 91%+ schema mapping accuracy and 95%+ anomaly detection performance.
- **Live Demo:** <https://new-intelli-migrate.pages.dev/>

◆ Access Anomaly Tracker (AI-Based Security System)

- Developed an AI-based system to detect suspicious login activities using Python.
- Implemented backend APIs and integrated database for tracking user authentication patterns.
- Improved system security by identifying abnormal behavior in real-time.
- Publication: <https://www.doi.org/10.59256/indjcst.20250403046>

◆ Task Manager (Full Stack Web Application)

- Built a full-stack Task Manager application using MERN stack.
- Implemented JWT authentication for secure user login.
- Developed CRUD functionality for efficient task management.
- Designed responsive UI using React.js.

INTERNSHIP

◆ Web Development Intern — Kush IT World (July 2025 – August 2025)

- Developed frontend components using HTML, CSS, JavaScript, and React.js.
- Integrated REST APIs and improved application performance.
- Worked on real-world projects involving database operations and backend logic.
- Collaborated with team members to deliver functional features.

EDUCATION

- B.Tech in Artificial Intelligence & Machine Learning
- Dr. A.P.J. Abdul Kalam Institute of Technology, Tanakpur (2022–2026)
- **Class 12 (CBSE)** — Apex Advance Studies Public School (2021)
- **Class 10 (CBSE)** — Apex Advance Studies Public School (2019)

CERTIFICATIONS

- MERN Stack — Simplilearn SkillUp (2025)
- Generative AI Workshop — NxtWave (2024)
- JPMorgan Chase Quantitative Research Simulation (Forage)
- Deloitte Data Analytics Simulation (Forage)

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Quick Learner
- Communication
