Professional Summary

Frontend Developer with a strong foundation in HTML, CSS, and JavaScript and hands-on experience building responsive web applications. Skilled in converting UI ideas into functional interfaces, integrating APIs, and debugging frontend logic. Seeking an entry-level Frontend or Software Developer role to deliver clean, user-focused web solutions.

Technical Skills

Programming Languages: Java, JavaScript, Python, PHP

Web Technologies: HTML, CSS, React.js

Databases: MySQL

Frameworks & Libraries: React (Functional Components, Hooks, Props)

Core Concepts: Responsive Design, DOM Manipulation, Event Handling, API Integration, State Management

Tools & Platforms: Git, GitHub, VS Code

Education

Integral University — Lucknow, Uttar Pradesh

Bachelor of Computer Applications (BCA) | Aug 2023 – 2026

Project

React Weather Application

<https://Muxqaan.github.io/react-weather-app>

- Developed a dynamic weather application using **React.js** (functional components & hooks)
 - Implemented **useState** and **useEffect** for state management and API handling
 - Integrated real-time weather data using a public API
 - Built responsive UI with conditional rendering and error handling
 - Improved user experience with clean UI and fast data updates
-

Additional Information

- Actively improving JavaScript logic and React fundamentals
- Comfortable working in structured and self-learning environments
- Familiar with GitHub workflows and version control
- Basic understanding of REST APIs and frontend debugging
- Experience building small frontend projects and deploying them on GitHub
