EXPERIENCE

Orangemantra - AI Digital Transformation Company - Project Coordinator

Gurgaon
12/2025 - Current

- Coordinate end-to-end delivery of web, mobile, healthcare, CMS, and e-commerce projects, ensuring alignment with client requirements and business objectives.
- Act as the primary liaison between clients, stakeholders, and cross-functional teams, managing communication, requirement discussions, and project updates.
- Facilitate sprint planning, task tracking, status reviews, and risk management activities using Agile methodologies and Jira.
- Collaborate with developers, designers, and QA teams to monitor project progress, resolve blockers, and ensure timely delivery of milestones.
- Maintain project documentation, meeting minutes, status reports, and delivery trackers to support effective project governance.
- Support deployment, testing coordination, and post-release activities while driving process improvements through AI-enabled productivity tools.
