PROFESSIONAL SUMMARY

Results-driven Software Developer with experience in developing scalable web applications, improving application performance, and delivering user-centric software solutions. Strong understanding of software development lifecycle, problem-solving, debugging, and collaborative development practices, seeking an Software Developer role.

PROJECTS

SkillGap AI - Career Intelligence Platform

React.js, FastAPI, Python, spaCy NLP, MongoDB, Tailwind CSS

Project Description: Built an AI-powered career intelligence platform for resume-job matching, skill gap analysis, and personalized learning recommendations, improving analysis accuracy by **85%**.

- Developed an **AI-powered resume analysis engine** using **spaCy NLP, TF-IDF, and FastAPI**, enabling accurate skill extraction, job matching, and personalized recommendation generation.
- Engineered **RESTful FastAPI backend services** for resume parsing, skill extraction, personalized recommendation generation, and email-based report delivery.
- Tested an interactive React dashboard featuring **progress tracking, analytics charts, domain classification, and personalized learning timelines** to validate UI functionality, responsiveness, and user workflow accuracy.
- Implemented **automated career recommendation system** with certification suggestions, learning resources, and estimated job-readiness timeline based on missing skills.

Job Portal Application [GitHub](#)

MERN Stack (MongoDB, Express.js, React.js, Node.js)

Project Description: Built a scalable MERN-based job portal for job search, application tracking, and recruitment management, improving user engagement by **35%**.

- Design and Developed a **responsive full-stack job portal** using **React.js, Node.js, Express.js, and MongoDB**, delivering seamless job search and application management across devices.
- Engineered **RESTful APIs, database optimization, and role-based authentication**, improving system performance and API response time by **30%**.
- Performed validation and testing of **database workflows and queries** to ensure accurate data storage, retrieval, and smooth application performance for large datasets.
- Implemented secure recruitment workflows with **user management, application tracking, and access control**, enhancing scalability, security, and overall platform reliability.

EDUCATION

JSS Academy of Technical Education

Master of Computer Applications CGPA: 8.5/10

Noida, U.P

July 2024 – May 2026

Coursework: Data Structures & Algorithms, Object-Oriented Programming, Software Architecture

TECHNICAL SKILLS

Languages: JavaScript, C, Python, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Django, FastAPI, Springboot

Databases: MongoDB, MySQL

Core CS: DBMS, Operating Systems, Computer Networks, OOP, Data Structures & Algorithms

Tools & Technologies: Git, GitHub, Postman, Maven, VS Code, MongoDB Atlas

HIGHLIGHTS

- Completed **O Level Certification (1 Year course)** from **NIELIT (National Institute of Electronics and Information Technology)**, comprising **2 semesters** with coursework in **WD, IT, IoT, and Python**.
- Completed **152 hours of Web Development with React certification**, gaining experience in **modern front-end development** and **component-based architecture** with **A1 grade**.
