LinkedIn Profile

SUMMARY

A Lead Developer and Full-Stack PHP specialist with 3+ years of experience architecting, building, and leading the development of high-performance web applications. Proficient in transforming project visions into scalable, technical realities using PHP, WordPress, and modern Agile methodologies. Demonstrates a strong command of both front-end and back-end development, having refined system performance by 35% and reduced manual workload by 40% through custom-coded solutions. Successfully mentors and coordinates teams to ensure the timely delivery of robust, user-centric digital products.

WORK EXPERIENCE

Lead Developer | UXGen Technologies | Gurugram | Jan 2025 – July 2025

- Spearheaded end-to-end development for 10+ WordPress and PHP projects, from technical architecture to deployment, ensuring code quality and scalability.
- Architected and implemented secure, fast, and scalable solutions for company websites, contributing to a 30% increase in client satisfaction.
- Conducted technical planning, sprint breakdowns, and system audits to align development efforts with business goals.

PHP & WP Developer | UXGen Technologies | Gurugram | Sep 2023 – Dec 2024

- Built 8+ responsive, custom WordPress themes and websites from scratch using PHP, HTML5, CSS3, and JavaScript.
- Boosted overall website performance by 35% through backend code refactoring and front-end optimization techniques.

Freelance PHP & WordPress Developer | Jul 2023- present

- Develop custom WordPress themes and plugins from scratch using core PHP, HTML5, CSS3, and JavaScript.
- Build responsive, mobile-optimized websites with clean code architecture and cross-browser compatibility.
- Collaborate directly with clients to understand requirements, provide technical solutions, and ensure project alignment.

PROJECT EXPERIENCE

1. UXGen Suite | Lead Developer | UXGen Technologies

- Led full-stack development for 4 company websites (uxgenstudio.com, uxgen.academy, uxgentechnologies.com, uxgenmarketing.com, pixilabs.uxgenmarketing.com, metalabs.uxgenmarketing.com, datagen.academy, uxgenadvisory.com, saas.uxgenadvisory.com, revenue.uxgenadvisory.com, [uxlaunchpad.academy](#), [uxmastery.academy](#), [switch.uxmastery.academy](#), [restart.uxmastery.academy](#), [influence.uxmastery.academy](#))
- Implemented secure, scalable architecture ensuring high performance and reliability
- Translated design mockups into fully functional, responsive web experiences

2. SPLISYS (splisys.com) | UXGen Studio | UXGen Technologies

- Engineered the core functionality and user interface for the SPLISYS platform, focusing on usability and performance.
- Delivered a highly responsive and scalable application, capable of handling user growth without degradation in speed or user experience.

3. Olympia Fitness Club Gym Management System | Freelance Project

- Developed a custom Gym Management System from scratch using Core PHP to digitize club operations.
- Engineered a QR-code-based attendance tracking system, eliminating manual entry and reducing errors.
- Integrated automated notification APIs to streamline member communication, improving operational efficiency.

4. Olympia Fitness Club Website | Freelance Project

- Built the club's first-ever custom website on WordPress, utilizing Core PHP for advanced backend functionality.
- Created a modern online presence that significantly enhanced information accessibility and brand credibility.
- Delivered a fully responsive design, ensuring an optimal user experience across all devices.

5. Sportto Soccer Club Website

- Revamped the club's outdated and unstructured website with a completely custom-built solution.
- Developed a dynamic, engaging online portal for players and fans, enhancing community engagement.
- Implemented intuitive navigation and a modern UI, making club information and event details easily accessible.
