- Cucumber Framework (BDD)
- API Testing (Postman,)
- Performance Testing (JMeter, Blazemeter)
- Test Planning & Execution
- Defect Tracking (JIRA)
- Agile & Scrum Methodologies
- SDLC & STLC Processes
- Functional, Regression, Smoke, Sanity, Compatibility & System Testing

Technical Skills

Automation Tools: Selenium WebDriver, Cucumber, End-Test

Performance: JMeter, BlazeMeter

Programming: Core Java, Gherkin syntax

Bug Tracking: Jira

API Testing: Postman

Frameworks: Cucumber (BDD), Page Object Model

Professional Experience

DevTrust – Quality Analyst

📅 July 2022 – Present | Lucknow

- Performed Functional, Regression, Integration, and API testing for web and mobile applications
- Developed and executed test cases based on business requirements and user stories
- Automated regression test suites using Selenium with Java and Cucumber
- Created and maintained BDD feature files using Gherkin syntax
- Integrated automated tests into CI/CD pipeline using Jenkins
- Used JIRA for test management, defect tracking, and sprint planning
- Coordinated with developers and product owners during Agile ceremonies

Edoro Technologies LLP – Software Test Engineer

📅 July 2021 – July 2022 | Lucknow

- Conducted manual and automated testing for web and e-commerce platforms
- Executed cross-platform and cross-browser testing for responsive apps
- Used Postman for validating API requests/responses
- Participated in daily stand-ups, sprint reviews, and client meetings

Project Highlights

Mercado (Import Management System)

- Tech Stack: React, Node.js, MySQL
- - Automated test scenarios using Selenium + Cucumber + End-Test
- - Conducted API testing and validation using Postman
- - Implemented BDD for end-to-end test coverage and traceability
- - Supported regression testing after every release/sprint
- - Performed performance testing using JMeter

Scheduling App (Web Platform)

- Modules: Scheduling, Client Info, Billing, Reporting
- - Validated business flows through test cases in JIRA
- - Participated in test case writing, bug logging, and regression cycles
- - Verified sprint tickets and supported UAT

Krugg (E-commerce Website for Home Decor Products)

- Tech Stack: WordPress (PHP), QuickBooks API, FedEx/UPS
- - Tested multi-role user functionalities (Dealers, Salesmen, Reps)
- - Verified payment gateways, order management, and inventory modules
- - Performed return request workflows and regression testing
- - Involved in Jenkins-based deployments and testing

Education

- Master of Computer Applications (MCA) | 2020 | 8.13 CGPA
- Bachelor of Computer Applications (BCA) | 2016 | 7.35 CGPA
- Higher Secondary (XII) | 2013 | 60%
- Secondary (X) | 2011 | 58.2%
