WORK EXPERIENCE

JBH by Rijuvalika Technologies Pvt. Ltd. (Frontend Developer)

Nov 2025 -Present

- Developed and maintained front-end features for live web applications.
- Utilized both class and functional components in React to build dynamic and efficient user interfaces.
- Implemented internal SEO strategies to enhance website visibility and search engine ranking.
- Collaborated with cross-functional teams to integrate APIs and ensure seamless user experiences.
- Utilized modern web technologies including **HTML5, CSS3, JavaScript, and React.js**.

Tech BRJ (Frontend Developer)

Nov 2023 – Oct 2025

- Converted Figma UI designs into responsive web pages using HTML, CSS, and JavaScript.
- Optimized components and assets for better performance and faster load times.
- Collaborated with designers and backend teams to integrate dynamic content and APIs.
- Learned and applied modern frontend principles such as component reusability and responsive design.
- Gained practical experience with version control (Git), debugging, and browser developer tools.

PROJECTS

QKart Frontend

[Demo](#)

- QKart is an E-commerce application offering a variety of products for customers to choose from.
- Implemented the core logic for authentication, shopping cart and checkout.
- Improved UI** by adding **responsive design** elements for uniform experience across different devices.
- Utilized REST APIs to dynamically load and render data served by the backend server.

DownTown Realtors

[Demo](#)

- This website is built using **Next.js** for its server-side rendering and static site generation capabilities.
- The project uses **Sanity CMS** for dynamic content, and **Tailwind CSS** and custom CSS for styling.
- It is hosted on Netlify for fast, CDN-backed global deployment.

QTrip

[Demo](#)

- QTrip is a travel website aimed at travellers looking for a multitude of adventures in different cities.
- Created web pages using **HTML,CSS** and made them dynamic using **JavaScript**.
- Improved UX with multi-select filters, image carousels. Implemented conditional rendering of page

NewsHub

[Demo](#)

- News Hub is build by using News API with Firebase Integration for Authentication purpose.
- User registration and login functionality using Firebase Authentication.
- Display news articles fetched from an external **API** in grid or list view.

EDUCATION

July 2019 - July 2023 Bachelor of Technology at **BBDITM Lucknow, UP, India**

(CGPA: 7.49/10)

ACHIEVEMENTS & CERTIFICATIONS

- Developed and launched multiple custom websites, including Real Estate, Photography, other businesses for clients.
- Successfully completed the Geektrust Coding Challenge with a score of 85/100.
