EDUCATION

Manipal University Jaipur

B.Tech in Computer Science and Engineering (Data Science)

2023 - 2027

CGPA : 9.16/10

City Montessori School

Class XII (CISCE)

Percentage: 92%

EXPERIENCE

Nasscom Virtual GenAI Internship

June 2025 – July 2025

Nasscom

- Completed 3 hands-on projects on Google Cloud Skill Boost, gaining practical experience in Generative AI model building, deployment, and cloud integration
- Earned 3 industry-recognized digital badges (Beginner to Advanced), demonstrating progressive expertise in Generative AI tools and APIs.

PROJECTS

Brain Tumor Detection using Transfer Learning (ResNet18) | *Python, Deep Learning, PyTorch, CNN*

- Designed a deep learning MRI classifier using ResNet18, trained on 253 images (70–15–15 split)
- Improved tumor detection with 82.61% sensitivity, correctly identifying 19/23 tumor cases
- Achieved F1-score of 0.81 (tumor class) and ROC-AUC of 0.73
- Limited overfitting by freezing backbone layers and training only 1,026 parameters

HealthBridge — Full Stack Healthcare Platform | *Node.js, Express, MongoDB, React, JWT, REST APIs*

- Built a distributed multi-tier system with role-based JWT auth across 4 user types using object-oriented MVC architecture and scalable, fault-tolerant data models across 6 MongoDB collections
- Implemented Haversine geolocation algorithm for real-time nearest-hospital SOS routing and developed end-to-end features including emergency alerts, appointment booking, and live hospital resource tracking on cloud MongoDB

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, React, Node.js

Developer Tools: Git, VS Code, PyCharm, IntelliJ, Eclipse, Linux(Ubuntu), Google Colab

AI/ML & Libraries: Supervised/ Unsupervised learning, Transformers, Scikit Learn, Pandas, Reinforcement Learning

Cloud & Databases: AWS (Basics), MongoDB (Atlas), SQL

Additional Concepts: Agile Methodologies, Basic CI/CD Concepts

ACHIEVEMENTS

- Published Patent (No. 202511111897): Health Bridge — recognized for innovation in integrated healthcare management and digital health service delivery.
- Published Patent (No. 202511056772): Vertically Integrated Data Centre System with AI-based Cooling and PCM-based Immersion Cooling — recognized for innovation in sustainable computing systems.
- IBMSkillsBuild - Introduction to Large Language Models: Covered LLM fundamentals, transformer architecture, prompt engineering, and GenAI concepts.
- NPTEL Certification– Introduction to Operating Systems (Jul–Sep 2025): Scored 75% (Top 1% nationwide), demonstrating strong understanding of process management, scheduling, memory management, and concurrency
- NPTEL Certification– Database Management Systems (Jan–Mar 2025): Scored 68% (Top 5% nationwide), demonstrating strong expertise in relational databases, SQL, and RDBMS concepts.
- Deloitte Australia Data Analytics Job Simulation (Forage, Jul 2025): Completed a virtual consulting project simulating real-world business data analysis and visualization.
