PROFESSIONAL SUMMARY

Data Science enthusiast with hands-on experience in Deep Learning (CNNs), LLM orchestration, and Full-stack AI development. Developed and deployed real-time inference pipelines for driver drowsiness detection and risk assessment systems. Expert in Python, SQL, and OCI-certified in Data Science and DevOps, with a track record of winning national-level hackathons at IIT Delhi, IIT Rourkee and IISc Bangalore.

EDUCATION

- Kamla Nehru Institute of Technology** Sultanpur, U.P., India
Bachelor of Technology - Computer Science Engineering; GPA: 7.71 September 2023 - June 2027
Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Compiler Design, Machine Learning, Computer Networks, Databases
- Indian Institute of Technology Madras** Madras, India
Bachelor of Science - Data Science and Application (Dual Degree); GPA: 7.2 May 2023 - December 2028
Courses: Data Structures and Algorithm, Statistics, Application Development, Machine Learning, Database Management System
- St. Clare's Convent School** Lucknow, India
Senior Secondary School (XII) - CBSE; Percentage: 86.60% 2022
- St. Clare's Convent School** Lucknow, India
Higher Secondary School (X) - CBSE; Percentage: 93.20% 2020

SKILLS SUMMARY

- Technologies:** Python, MySQL, PostgreSQL, SQLite, Machine Learning, Feature Engineering, Data Visualization
- Frameworks:** Scikit, Numpy, Pandas, Matplotlib, XGBoost, Flask
- Tools:** Git, Github, Postman, VS Code, Vercel, Arduino IDE, PostgreSQL, MySQL, SQLite
- Soft Skills:** Collaborative Teamwork, Effective Articulation, Organizational Planning, Adaptability, Problem Solving

EXPERIENCE

- Data Science Intern – Data Culture Technologies Pvt. Ltd.** Remote
October 2025 – January 2026
 - Developed CNN-based computer vision models for multimodal human behavior analysis and driver drowsiness detection
 - Built real-time video inference pipelines using Python, OpenCV, and TensorFlow/PyTorch
 - Trained and optimized deep learning models for facial feature analysis, improving performance in dynamic environments
- Data Science Intern – Data Culture Technologies Pvt. Ltd.** Onsite, Delhi
January 2026 – February 2026
 - Contributed to the development of a Context-Aware Risk Assessment System leveraging LLMs and AI-based decision logic.
 - Performed data preprocessing, prompt engineering, and model evaluation in Python, improved model F1-score using Python and modern AI frameworks.
 - Conducted **A/B testing** on different model architectures to validate predictive reliability.
- Judge - Hack to Learn Hackathon** KIT, Kanpur
December 2025
 - Served as Judge, overseeing evaluation of 20 shortlisted teams presenting technical prototypes.
 - Assessed projects based on innovation, technical depth, feasibility, and real-world impact.
 - Guided participants through feedback and structured scoring to ensure fair and merit-based selection.

PROJECTS

- **Email Triage System - (FastAPI, Python, Qwen 2.5(LLM), Pydantic, Docker, Uvicorn, Open AI SDK):** Built an automated Email Triage System using Qwen 2.5 (LLM) and FastAPI to mitigate SLA breaches and operational inefficiencies, achieving up to **0.78, 0.64 and 0.53** accuracy over easy, medium and hard cases respectively real-world classification tasks.(April'26)
- **Sentinel Mark - (FastAPI, Unicodes, Python, React, Vite):** Developed Sentinel Mark, a digital forensics system using FastAPI and AES-256, that secures sensitive text-based files (CSV, JSON, TXT) via invisible Unicode steganography to ensure 100% traceability of leaks.(March'26)
- **PayTM Pulse - (FastAPI, XGBoost, React, Vite):** Engineered PayTM Pulse, a production-level fintech SaaS using FastAPI and XGBoost, providing small-scale merchants with AI-driven inventory insights by bridging historical sales patterns and real-time data. (March'26)
- **AI Voice Detector API - (Wav2Vec2 (Facebook API), MFCC Features, Logistic Regression Classifier):** Delivered a multi-lingual AI Voice Detector using Wav2Vec2 and MFCC to classify human vs. synthetic speech across Tanglish(Tamil+English) and Hinglish(Hindi+English) languages; deployed via a high-performance FastAPI system for real-time, Base64-encoded audio processing with 63% accuracy. (February'26)
- **Agentic Reasoning System - (Naive Bayes, N-Gram Extraction):** Engineered a lightweight, fully local Agentic Reasoning System for logic-based question answering; implemented transparent reasoning traces and **N-gram feature extraction** to ensure high-speed, privacy-focused local inference. (October'25)
- **FinVAT - (React.js, Node.js, Steganography):** Developed a forensic attribution system using **Image Steganography** to identify data leakers by matching and decrypting hidden fingerprints; achieved **100% traceability** and zero-perceptual distortion for secured financial data sharing. (July'25)
- **FinIQ - AI-powered personal finance advisor (React.js, Node.js, Flask):** Engineered **FinIQ**, an AI-driven personal finance advisor that leverages conversational interfaces to automate budgeting and investment planning; integrated a **Flask-based** backend to deliver real-time financial insights and debt management strategies. (May'25)
- **Deepsan Analytics - HIVE Blockchain Analytics Platform (React.js, Node.js, Hive API.):** Architected DeepSan Analytics, a scalable Web3 intelligence platform that ingests Hive blockchain data to deliver real-time trend analysis, account behavioral patterns, and forensic insights for decentralized assets.(February'25)

CERTIFICATIONS

- **OCI 25 Certified AI Foundation Associate:** October 25
- **OCI 25 Certified Foundation Associate:** (October 25)
- **OCI 25 Certified Data Science Professional:** (October 25)
- **OCI 25 Certified DevOps Professional:** (October 25)

AWARDS AND ACHIEVEMENTS

- 5th Position in HIVE Hackathon at IIT Delhi in TRYST'25, won Rs.40,000 prize money - March, 2025
- 6th Position in HackEclipse Hackathon by IIT Madras - May, 2025
- 1st Position in Cyber Suraksha Hackathon at IISc Bangalore, won Rs.5 Lakh prize money - July, 2025
- Finalist at A2Hack Fest by QRaptor AI - July, 2025
- 4th Position in Codex 2.0 at PIET Panipat - August, 2025
- 1st Position in Safe Speed Challenge, Case Study Competition by IIT Rourkee - February, 2026
- Finalist in India Innovates'26 by Municiple Corporation of Delhi at Bharat Mandapam, New Delhi - March, 2025

VOLUNTEER EXPERIENCE

- | | |
|--|--|
| • Organizer , Mavericks BGMI Esports Tournament
<i>Conducted online with over 200 Participants.</i> | KNIT Sultanpur, India
<i>November 2024</i> |
| • Innovation & Technical Head at Tech and Robotics Club
<i>Organized events, conducted workshops and delivered workshops</i> | KNIT, Sultanpur, India
<i>August 2025 - Present</i> |
| • Event Head, High Speed Line Follower Robot at Effulgence'26
<i>Organized a successful Line Follower Event</i> | KNIT, Sultanpur, India
<i>April 2026</i> |
| • Content Coordinator at Literary Council
<i>Organized events, conducted literary workshops and delivered literary workshops</i> | KNIT, Sultanpur, India
<i>April 2025 - Present</i> |
