CAREER OBJECTIVE

B.Tech CSE student with skills in Python, SQL, and data visualization, passionate about data analytics and machine learning. Seeking an internship opportunity to apply analytical and problem-solving skills on real-world projects.

EDUCATION

B.Tech in Computer Science & Engineering | School of Management Sciences, Lucknow
2023 – 2027 (Expected)
Senior Secondary (Class XII) | Army Public School
CBSE 2023 | 81%
Secondary (Class X) | Army Public School
CBSE 2021 | 93%

PROJECTS / EXPERIENCE

- ❖ **Student Database Management** (School Project)
Developed a Student Database Management System using Python and SQLite to manage 500+ student records efficiently. Implemented automated report generation for average, highest, and lowest scores, improving data retrieval and organization.
 - ❖ **Sentiment Analyzer**
Built a sentiment analysis model using Python and NLP techniques to classify text into positive, negative, and neutral sentiments. Performed data preprocessing, model training, and evaluation collaboratively in a team environment.
 - ❖ **AI-Powered Phishing Detection & Email Security Analyzer** (Deployed)
Developed and deployed an AI-powered phishing detection web application using Python and Streamlit, integrated with the Gemini API for intelligent email threat analysis. The system analyzes suspicious links, sender behavior, and email content to identify potential phishing attacks and enhance user security through real-time risk detection.
-

SKILLS

- Programming Languages: Python(Pandas, NumPy), SQL
 - Data Visualization: Power BI, Excel
 - Tools: Jupyter Notebook, VS Code, GitHub
 - Concepts: Data Cleaning, EDA, Basic Machine Learning
 - Soft Skills: Analytical Thinking, Problem-Solving, Attention to Detail
-

CERTIFICATIONS

- Data Analytics Job Simulation by **Deloitte Australia**
 - **Google Cloud** Data Analytics Certificate Course One
 - **Machine Learning and Deep** Learning Fundamentals by Amigo India
 - **Python** Basics Bootcamp by Lets Upgrade
-

ADDITIONAL INFORMATION

- Experience working on team-based academic projects
- Interested in Data Analytics, Machine Learning, and Business Intelligence
- Willing to learn new technologies and contribute effectively in collaborative environments.
