SUMMARY

Data Analyst with skills in data analysis, SQL querying, and dashboard development. Proficient in Python (Pandas, NumPy), Power BI, Tableau, Excel, and SQL with experience in data cleaning, KPI tracking, dashboard creation, and business intelligence. Strong analytical mindset with the ability to transform raw data into actionable business insights and support data-driven decision-making.

TECHNICAL SKILLS

- **Programming & Data Tools:** Python (Pandas, NumPy), SQL, Excel, Power BI, Tableau
- **Data Techniques:** Data Cleaning, EDA, Data Modelling, Data Validation
- **Database Management:** MySQL, MariaDB, MongoDB
- **Data Visualization & Reporting:** Dashboards, KPI Tracking, Data Storytelling
- **Statistics & Analysis:** Hypothesis Testing, Correlation, Regression
- **Tools:** MS Office, Google Sheets, Jupyter Notebook

PROFESSIONAL EXPERIENCE

NoviTech RD Pvt Ltd

Jan 2026 – Feb 2026

Data Analyst Trainee (Remote)

- Collected, cleaned, and analyzed 5,000+ data records using Python, SQL, and Excel.
- Built 5+ interactive dashboards in Power BI for project tracking, financial summaries, and performance monitoring.
- Created data validation and visualization scripts using Pandas, NumPy, and Matplotlib, improving report accuracy by 30%.
- Automated repetitive reporting processes, reducing turnaround time by 35%.
- Supported management in generating KPI reports and business insights for operational decision-making.

PROJECTS

Sales Performance Dashboard (Excel)

- Designed an interactive dashboard to analyze 10,000+ sales records across regional sales performance, profit margins, and customer segments.
- Integrated SQL queries to fetch real-time data and visualize trends.
- Improved decision-making efficiency through actionable business insights.

Global Sales Analysis Dashboard (Tableau)

- Designed an interactive Tableau dashboard to analyze global sales, profit, and tax metrics.
- Created country-wise sales maps, product-wise profit charts, and yearly sales trend visualizations.
- Built comparative dashboards for product categories including Cars, Trucks, Buses, and Planes.

Retail Performance Tracker (Power BI + SQL)

- Built a Power BI dashboard to monitor sales, tax, profit, and quantity metrics.
- Used Power Query for data cleaning and transformation.
- Implemented interactive filters for product line, customer type, payment mode, and branch.
- Enhanced reporting efficiency and dashboard usability.

Data Cleaning Analysis Project (Python + Excel)

- Processed raw datasets using Pandas and NumPy.
- Handled missing values, inconsistencies, and outliers.
- Generated analytical reports identifying key trends and business patterns.
- Improved business data reliability through effective data cleaning practices.

EDUCATION

Babu Banarasi Das University, Lucknow

Bachelor of Technology (B.Tech) – Computer Science Engineering 2022 – 2026

CERTIFICATIONS

- Data Analyst Certification – NoviTech RD Pvt Ltd
- Machine Learning with Python – GrassTech (Learnovate)

SOFT SKILLS

- Analytical Thinking
- Data Interpretation
- Communication
- Problem Solving
- Collaboration
- Attention to Detail
